MSC IN LAW & FINANCE PROFILES

Class of 2022-23

INTRODUCTION

MLF candidates are an exceptionally talented and diverse group of students. They arrive having graduated at or near the top of their undergraduate class,

often combined with several years of professional experience. They leave with graduate level training in finance and economics, along with a sophisticated understanding of the complex transactional and policy issues at the intersection of law and finance. This is the MLF's unique value proposition and the reason why our graduates go on to successful, high impact careers in law, finance, policy, and academia.

ABOUT THE PROGRAMME

The MLF is a one-year taught masters programme delivered jointly by Oxford's Faculty of Law and the Saïd Business School. Since its inception in 2010, the MLF has gained an unparalleled reputation for combining academic excellence with practical insights into the important and complex issues at the intersection of law and finance. As part of the curriculum, MLF students undertake graduate level courses in the core courses of First Principles of Financial Economics; Finance; and the Law and Economics of Corporate Transactions. These core courses are then supplemented by courses from the Law Faculty and Saïd Business School's deep stable of electives, including Principles of Financial Regulation, Comparative Corporate Governance, Corporate Finance Law, Entrepreneurial Finance Projects, Mergers and Acquisitions, and Investing in Public Equity. This in-depth exposure to cutting edge research and ideas in the fields of both law and finance makes MLF graduates exceptionally well qualified to address the important challenges facing businesses, governments, lawyers and regulators in the 21st century.

For 2022, the University of Oxford was named the world's number one university for the sixth successive year in the Times Higher Education World University Rankings.
