Glossary of Oxford Terminology ............................................................... 72
Introduction

Welcome to the University of Oxford.

This Handbook is a guide for students for the Research degrees: MPhil, MSt in Legal Research, MLitt and DPhil in Law. It also provides information for students of the DPhil in Socio-Legal Studies though they should also refer to the Centre for Socio-Legal Studies' own handbook, which contains certain additional information specific to that degree; it can be found at http://www.csls.ox.ac.uk/documents/gradhandbook.pdf There are separate Handbooks for students of the MSc, MPhil, and DPhil in Criminology and Criminal Justice, which available from the Centre for Criminology http://www.crim.ox.ac.uk/index.php

The people listed in ‘Helpful people’ table below will be glad to provide or to find any further information that you may need. Please bear the following in mind in using this Handbook:

- The Handbook provides a guide to the rules for each degree programme, but in case of any conflict, the University of Oxford Examinations Regulations (published in the “Grey Book”) prevail. Amendments to the Regulations are published in the University of Oxford Gazette and updated in the online version of the Examination Regulations, so the online version is therefore the most up to date.
- We’ve included in this Handbook, under appendices, templates for research students, and a statement about supervisory provision for research students; these documents repeat information that is covered in greater detail elsewhere in the Handbook but we hope they may be a useful summary.
- You can find a great deal of further information (in particular, information about members of the Faculty and their work) on the Law Faculty website:
- The Law Faculty Office communicates with students by way of messages to the Law Postgrads e-mail list, and we expect you to be reading those messages more-or-less daily.
- You are a member of a college as well as a student of the University. Your college will provide much of the support and many of the facilities you will need as a student, and will be able to provide you with information.
- There is a glossary of Oxford terminology at the end of the Handbook.

Alan Bogg
Directors of Graduate Studies- Research
The role of the Faculty, College and University

Students taking law programmes at Oxford are members of their college, of Oxford University generally, and of the University’s Law Faculty.

At graduate level, it is the Faculty which plays the principal role in organising student’s teaching and supervision, and monitoring their academic progress. It consists of all college and University staff who are involved in the teaching of law. Its members meet regularly to discuss its affairs. There are also subject groups within the Faculty consisting of members with a particular interest in the various subjects. The Faculty is led by the Dean, who also serves as the Chair of the Faculty Board. The Faculty holds annual elections of its members to the Faculty Board, which takes an executive role on behalf of the Faculty. The Board has a number of committees. Students are also represented on it and on some of its committees, such as the Graduate Studies Committee (see the section on Student Representation in the ‘Feedback’ section elsewhere in this handbook for further details). The Faculty Board has a Chair and a Vice-Chair, and includes a Director of Undergraduate Studies, a Director of Graduate Studies (research degrees) and a Director of Graduate Studies (taught degrees). Further information about the precise roles of students, course convenors and supervisors are provided in the teaching and learning section further into this handbook.

Your College also provides two further sources of advice in the form of the Tutor for Graduates (a Fellow of the College with special responsibility for graduate students) and your college advisor, who will generally be a member of the Law Faculty. These people will able to help you with any matters relating to life within the College and pastoral concerns more generally, but the college advisor, as a member of the Law Faculty, can usually provide advice on more academic issues too. Inevitably, there is a degree of overlap in terms of the help these various individuals can provide and you don’t need to worry too much about identifying the most suitable person from those referred to for your particular query; the first person you contact can always point you in the right direction if they feel that someone other than themselves would be a better source of advice. Colleges describe their arrangements and facilities in their entries in the Oxford University prospectus (many also have their own prospectus), and, in much more detail, in the material which they supply to their own students. The statements of provision at the end of this handbook provide some further information about sources of advice, including University provision of such things as counseling, and careers and disability information.

The University contributes the overall academic structure within which the various programmes run (it is responsible for defining syllabuses, for example, and running official examinations). It also provides sports, welfare, careers, language teaching and IT facilities. It describes its arrangements and facilities on the University website (and in particular the information under the ‘Oxford students’ link on the homepage), and, in more detail, in the literature which students receive upon or after entry, such as the Proctors’ and Assessor’s Memorandum.

</table>

If seeking advice on specifically academic matters then the first person to contact will generally be your supervisor. For more general advice about procedural or administrative matters, or if you have concerns about anything to do with your studies, then, in the first instance, we suggest you contact Geraldine Malloy.

If Geraldine is not able to help you, then they can refer the matter to the relevant Director of Graduate Studies.

The Administrative Structure of the Faculty

From a Graduate student perspective, the elements of the administrative structure which it is useful for you to be familiar with are the following:

Graduate Studies Committee
The principal body responsible for making decisions on graduate matters is the Faculty’s Graduate Studies Committee (GSC), which meets in Weeks One and Six each term. Its membership is made up of Faculty members with particular interests in graduate studies, and student representatives for each graduate law course and for the MSc in Criminology (see 6 below for more information about how student representatives are appointed and on what bodies they serve). GSC is chaired by the two Directors of Graduate Studies (taught and research) to whom the Committee delegates certain responsibilities.

Law Faculty Board
On certain matters, GSC has the power to act autonomously; on others, it makes recommendations to the Law Faculty Board which is the governing body of the Law Faculty. The Law Board includes the Directors of Graduate Studies; most other members are elected from the Faculty, and student representatives attend its meetings. The Law Board is responsible for administering and overseeing all teaching and examining in the Faculty, and for facilitating legal research. It meets twice a term in second and seventh weeks, and in the
fifth week of the summer vacation

Social Sciences Division/University Education Committee
Whilst the Law Board has authority to make decisions about most student-related matters, or delegate those decisions to GSC, there are certain occasions on which it is required to seek approval from one of the Committees of the Social Sciences Division which itself may then need to refer the matter to the University Education Committee.

Other Committees
There is a Committee for Library Provision which deals with matters relating to the functioning of the Bodleian Law Library. There are also a number of Faculty committees which deal with matters less directly associated with graduate student concerns (General Purposes Committee, Developments Committee, Appointments Committee).

Administrative Officers
The Faculty's Head of Administration (Charlotte Vinnicombe) is responsible for day-to-day administration of faculty activities and the Law Faculty Office and there are five individuals with responsibilities for different aspects of graduate student administration: the Academic Administrator (Paul Burns) is responsible for day-to-day administration of academic affairs for graduate (and undergraduate) students; the Graduate Studies Administrator (Geraldine Malloy) is responsible for administration of student status and progression through the degree programmes; and the Student Administration Officers (Caroline Norris and Marianne Biese) are responsible for student-related events and general course administration. Geraldine Malloy and Paul Burns can offer general advice to graduate students across all courses.

Induction Events

Registration for all new students with the Faculty begins on Monday 29 September. Induction events then run through the remainder of that week and Week 0 of Michaelmas Term (beginning Monday 6 October). The timetable for these events at the time of going to press is as follows: however please refer to the Weblearn page at https://weblearn.ox.ac.uk/portal/hierarchy/socsci/law/subjects/induction for the latest version of this timetable.

### Divisional Induction Event

All doctoral students are strongly encouraged to attend the annual Social Sciences Divisional Induction and Welcome Event. The 2014–15 event will take place on Thursday, 9th October (Week 0) at Rhodes House, South Parks Road. The event provides an exciting opportunity for students to meet fellow doctoral students from across the social sciences at Oxford and to hear about the support available for doctoral training. The event will be followed by a drinks reception.

### Lectures and Seminars

The lecture list is published at the beginning of each term. It may be accessed at [www.law.ox.ac.uk/lecture_lists](http://www.law.ox.ac.uk/lecture_lists). Corrections and changes to the timetable are also provided on that web page, and notified to students by e-mail as and when they occur. **Please check this link regularly** – inevitably there are occasions when lectures are cancelled or rescheduled and information about such changes is put on this page as soon as it is available.

You are entitled to attend any lectures, classes and seminars except those where it is otherwise indicated on the lecture list. The list includes lectures and seminars designed for the undergraduate, BCL, MJur, and MSc syllabuses, and also for the Course in Legal Research Method. Lectures on the undergraduate (“Final Honours School”) sections of the lecture list may be useful to graduate students; it is best to consult your supervisor or college advisor for advice.

All the faculties publish lecture lists and you may attend lectures in other faculties. There is also a “Special Lecture List”, listing lectures by visiting speakers. The law lectures may take place anywhere in Oxford, but most are held in the St. Cross Building.

### The St. Cross Building and Bodleian Law Library

The Faculty’s physical location is the St Cross Building, on the corner of St Cross Road and Manor Road (see [http://www.law.ox.ac.uk/about/location.php](http://www.law.ox.ac.uk/about/location.php) for further directions).
It houses the Faculty’s administrative offices. To find the Faculty Office, follow the flight of steps up the outside of the building to the second landing and go through the sliding door on your right (the Faculty Office is the first office on the right).

The St. Cross Building houses the Faculty’s principal lecture and seminar rooms – the Gulbenkian Lecture Theatre, the White and Case lecture theatre, the Cube, and Seminar Rooms C-G. You will see these venues mentioned on the lecture list (see below for further details).

At the top of the building is one of the best law libraries in the world: the Bodleian Law Library. As well as holding the library’s collection of legal texts, it also houses the Freshfields IT Room and the Baker & McKenzie room – an additional seminar room. Further information about the Library is provided in the section of this handbook entitled ‘Support’.

There is a student common room next to the senior common room at the top of the main steps. Coffee, tea and snacks are available there. More substantial food is available at The Social Sciences Building, behind the St. Cross Building along Manor Road.

Your University card gives you swipe-card entrance to the law library, and your Oxford ‘single-sign on’ account gives you full access to the Bodleian’s extensive electronic holdings.

Detailed information, maps and research guides are available in the BLL and on the library website (http://www.admin.ox.ac.uk/access/libraries/bodleianlawlibrary/)
The BLL is not a lending library: books and journals etc. may not be taken out. Items held at the Book Storage facility, marked Books/Closed Stack on the SOLO catalogue can be ordered into the BLL. Self-service photocopying and printing and a computer with software for visually impaired readers are available.

Computers providing access to electronic holdings, the internet, Microsoft Office applications and EndNote are available in the upstairs gallery computer room, the graduate reading room, the Freshfields Bruckhaus Deringer IT training room and at various positions around the library. All computers have USB ports. If you prefer to bring your own laptop to the library, there are Ethernet points in various parts of the library, and wireless access in the main reading room and the graduate reading room. See the Computing Services page on the library website for more information.

Do not leave your laptop unattended in the library or anywhere else – use a computer cable lock or one of the lockers in the St Cross Building. Ask at the Porter’s Lodge about lockers.

**Access to Electronic Library Services**

The library’s electronic holdings are accessible via SOLO: http://solo.bodleian.ox.ac.uk/ and via OxLIP+: http://oxlip-plus.bodleian.ox.ac.uk using your Oxford ‘single-sign on’ log in. In general, you should not need any other passwords: Lexis, Westlaw and other legal databases are all accessible via this website, from both on and off campus. For more detailed information about the eresources in law, including any exceptions regarding passwords, see www.bodleian.ox.ac.uk/law/e-resources/databases.

Online tutorials for key legal and journal databases are available at http://ox.libguides.com/lawindex. The BLL gives many classes in how to more efficiently use databases or find online journals or investigate sources for particular areas of law. Students can also 'book a librarian' for a session: email: law.library@bodleian.ox.ac.uk or phone (01865
The Library distributes a Newsletter via the faculty’s postgrad [LPg] email list and the Law Bod Blog (http://blogs.bodleian.ox.ac.uk/lawbod/) also provides current information.

**Other Libraries**

You are entitled to use all parts of the Bodleian and other Bodleian libraries (see www.bodleian.ox.ac.uk/libraries). Libraries of special interest to lawyers include:

- The Old Library in Catte Street with reading rooms for classical studies, history and early printed books
- The Vere Harmsworth Library (Rothermere American Institute) in South Parks Road, which contains American history, politics and current affairs
- The Radcliffe Science Library on the corner of South Parks Road and Parks Road which has the Bodleian’s collection of forensic science and geography
- The Social Science Library in the Manor Road building, a lending library which incorporates the libraries of the Centre for Socio-Legal Studies and the Centre for Criminological Research.

**Computing Services**

**Oxford University Computing Services**

Oxford University Computing Services (IT Services) provide the main University IT services. The IT Help Centre at IT Services gives support in using these services by email and phone. PCs and Macs with a wide range of software, printers, and scanners are available at the IT Services building for general use. IT Services also provides numerous courses in all manner of computing, from ‘computing for the terrified’ to training and testing for the European Computer Driving License to web publishing to using Photoshop to programming. Their courses in using Word are invaluable for thesis writers and their computer maintenance contracts are very competitively priced. The IT Services shop sells a limited range of computers, site-licensed software, USB keys, CDs, cables etc. For a general overview of services offered by IT Services go to http://welcometoit.ox.ac.uk. IT Services is at 13 Banbury Road, phone 273200, fax 273275 or e-mail help@oucs.ox.ac.uk

**University Rules for Computer Use**

You are expected to adhere to the University’s Computer Usage Rules and Etiquette guidelines and the Regulations Relating to the Use of Information Technology Facilities, which are available at http://www.ict.ox.ac.uk/oxford/rules/

**Your Oxford ‘Single-Sign On’ Account**

Access to Student Self Service, and Network Services

Your Oxford card and related ‘single-sign on’ account are your passports to university services. It gives you access to:

- the Student Self Service system (see below)
- the Graduate Supervision System for research students (see section B 3.1 for more information)
- electronic library services, such as Lexis, Westlaw, online journals etc.
- Oxford email (https://nexus.ox.ac.uk/), to which all crucial university information will be sent, and which you can access via the internet or Outlook, Thunderbird or another email client, or redirect to your main email
- Weblearn (https://weblearn.ox.ac.uk) for course reading lists, lecture handouts etc.
• registration and software for the Sophos anti-virus program – most university network
  points require use of current anti-virus software (www.IT Services.ox.ac.uk/viruses/)
• registration and software for the Virtual Private Network, which gives access to some
  Oxford wireless systems and access to the network from off-campus (www.IT
  Services.ox.ac.uk/network/vpn/)
• access to ‘Eduroam’ networks in Oxford and in other UK campuses (www.IT
  Services.ox.ac.uk/network/wireless/services/eduroam/)
• file backup for your computer (available on campus only, see www.IT
  Services.ox.ac.uk/hfs)
• other IT SERVICES - see http://welcometoit.ox.ac.uk

For help with using the university’s electronic and computing services, contact
Sandra Meredith (Faculty – sandra.meredith@law.ox.ac.uk), phone (01865) 271 499.
Please use your Oxford email account for all email communication with the
university.

Email Lists
The Faculty’s principal means of communicating with graduate students is via the
postgraduate email list, to which all graduate students are automatically subscribed.
Information about lectures and seminars, discussion groups, delegate elections, IT and library
training, teaching opportunities, scholarships, library hours etc. is distributed on this list. There
is also an email list for research students only (the [law-res] email list), however all general
information of interest to all postgrad students is sent to the [LPg] list. Students may subscribe
to Faculty discussion group email lists.

Postgraduate email list messages have an [LPg] prefix in the subject line. If you don’t
receive LPg emails, please notify the Faculty Office by emailing lawfac@law.ox.ac.uk.

Faculty Website and Weblearn
The public Faculty website (www.law.ox.ac.uk) provides information about courses, news and
events, graduate discussion groups, how the faculty works, faculty members, much other
detail relevant to postgraduate study, links to faculty centres, specialisations, publications,
library and computing facilities and more.

The Faculty intranet (www.law.ox.ac.uk/intranet/) provides an ‘online editing system’ (that is
used by taught course students to sign up for course options at the beginning of the year, and
by research students to add information about their research interests, publications etc.
Authorized students also use this system to add information about discussion group meetings
and other events. Your username for the ‘online editing system’ is the first part of your Oxford
email address (i.e. the bit before the @ symbol), and the default password is your University
card number (the number above the bar code). You may change this password.
Weblearn (https://weblearn.ox.ac.uk/portal/hierarchy/socsci/law/subjects) is used for all
course materials (reading lists, lecture handouts) and tutorial sign-up. Your Weblearn
username and password is your Oxford single-sign on (the one you use for email).

IT Support in the Faculty
Contact the Departmental Lecturer in Legal Research Skills, Sandra Meredith (271499,
sandra.meredith@law.ox.ac.uk) for help with general orientation to online services, one-to-
one help with using legal and journal databases and research resources such as EndNote,
NVivo, and basic computer applications, and for information about using Weblearn. Bento de Sousa (281269, bentou.sousa@law.ox.ac.uk), our IT Support and Database Officer, can give advice on file storage and backups, and may be able to offer limited help to graduate students having problems with their laptops or connecting to the network. Catherine Donaldson or Steve Allen (281618, web.support@law.ox.ac.uk.), the Faculty’s web officers, can give you help with using the intranet and on-line editing system. If your University card does not work in the swipe card machines at doors in the St. Cross Building, email system.support@law.ox.ac.uk.

Oxford Students website

For general information about all aspects of student life- academic matters, fees, social activities, health and welfare, please refer to the University's webpage ‘Oxford Students’ at http://www.ox.ac.uk/students

This is a very useful resource, covering information from all sorts of areas of the University’s activities and is a good starting point if you have queries on almost any subject which doesn’t pertain specifically to the Law Faculty itself. For more information about other useful University resources, please refer to the sections on Facilities and Support that appear later in this handbook.

Student Self-Service

Student self-service provides web access to important information that you will need throughout your academic career. You are able to register, print an enrolment certificate, view and update your personal and academic information throughout your studies at Oxford. For further information, see http://www.ox.ac.uk/students/studentselfservice/

University Resources

The University has a vast array of resources for its students. Here is a list of some of them.

Law Graduate Students’ Representatives and Association

Oxford’s graduate law students have an association for the purposes of encouraging graduate law students to get to know one another, and co-ordinating academic and social events. The students’ association depends on the work of elected student social representatives. Students who would be interested in serving their fellow students in this way are warmly encouraged to stand for these positions in elections run at the beginning of Michaelmas Term over the law postgraduate [LPg] e-mail list. The extent of community amongst the graduate law students ultimately depends on the effort each graduate is willing to make.

As well as social representatives, graduate law students also elect student representatives for Law Faculty committees in Michaelmas Term. A DPhil student, a first-year research students’ representative, a BCL representative, a MJur representative, an MLF representative, an MSc/MPhil (Criminology) representative, all attend meetings of the Law Faculty’s Graduate Studies Committee, which is both a decision-making body and a forum for the discussion of graduate student issues. Some student representatives attend other committees, including the Library Committee, and the Law Board. As members of the Social Sciences Division, Law graduate students may also stand for election to the Social Sciences Divisional Board.

The Oxford University Commonwealth Law Journal

The Oxford University Commonwealth Law Journal (OUCLJ) is a project of the Oxford graduate law student body, produced under the aegis of the Oxford Faculty of Law. It is a fully peer-reviewed, student-edited journal, published twice yearly. Its aim is to foster international academic debate and exchange on a wide range of legal topics of interest throughout the Commonwealth. Graduate law students at Oxford have the opportunity to apply to be an Associate Editor of the OUCLJ (and subsequently to be an Editor). Associate Editors will have the unique opportunity to shape the content and future of the journal on behalf of the graduate student body, while also gaining invaluable publishing and editorial experience, and contact with legal scholars around the world. Student subscriptions to the OUCLJ are available at a reduced price. More information can be obtained from the OUCLJ website: www.law.ox.ac.uk/publications/ouclj.php or contact the current editor Andelka Phillips, andelka.phillips@st-hildas.ox.ac.uk

Funding Opportunities

General information about funding – including details of fees and potential sources of funding, can be found on the University webpages at http://www.ox.ac.uk/admissions/postgraduate_courses/fees_and_funding/index.html
The Law Faculty also has its own scholarships and has awarded over £180,000 to postgraduate students for 2014-15. Details of these scholarships and of college scholarships for which law students are eligible can be found at: http://www.law.ox.ac.uk/postgraduate/scholarships.php. The Graduate Studies Administrator or Academic Administrator can also advise.

**Travel Grants**

Any graduate student taking a research degree under the auspices of the Law Board may apply to the Graduate Studies Committee for a grant for travel associated with their studies. However, students funded by the ESRC or AHRC should apply for the Research Training Support Grant (RTSG) in the first instance, via their designated divisional contact. There are two possible grounds on which a grant may be given. The first is that empirical research is required to complete the project and that this empirical research may be undertaken at another location. The second is that a chapter of your thesis is being presented at an academic conference. Applications should always be made before the event. The normal limit for travel grants to any one student in any one year is £250. Further information and application forms may be obtained from Mrs. Jackie Hall, Law Faculty Office, St. Cross Building (Tel: 271045; e-mail jackie.hall@law.ox.ac.uk). Any student undertaking overseas travel as a constituent of their studies, and with the approval of their supervisor will be entitled to insurance cover under the University scheme. To obtain the documentation which needs to be completed by them in order to obtain cover, they should contact Jackie Hall at the address above.

**Research Ethics**

The University requires that staff or students who, in their role as members of the University, are conducting research that involves the participation of people who are not part of the research team should have their projects subjected to ethical review. This requirement covers not only medical or psychological in nature, but also those that involve interviews-based research or the collection of personal data. The requirement is that approval should be granted on behalf of the appropriate review committee (in the case of members and students of the Law Faculty, this is the Social Sciences & Humanities Inter-Divisional Research Ethics Committee) prior to the commencement of the research project.

The University's requirements for ethical review are detailed at http://www.admin.ox.ac.uk/curec/, and guidance, application forms, and submission details can be found here. Advice on the process (including guidance as to whether your project falls under the requirement for ethical review, if you are unsure) can be sought by emailing ethics@socsci.ox.ac.uk. Review can take up to two months from the point of submission, and you are therefore advised to seek guidance at the earliest opportunity, to avoid any delay.

**General Sources of Help**

Being a student is exciting, challenging and rewarding, but it is not always a bed of roses! Everyone in Oxford is well aware that students, like anyone else, can have problems. To a large extent we take these in our stride, consciously or unconsciously making use of the familiar support systems with which we surround ourselves, such as family bonds, friendships, and reliance upon those whose role it is to supervise us. But sometimes our problems need
more intensive attention. Do not feel alarmed about acknowledging this: it really can happen to anyone. Oxford has a number of mechanisms designed to help.

**Departmental**

If the problem is essentially academic in nature, then the first person you should speak to is the Graduate Studies Administrator or Director of Graduate Studies for Research courses.

**College**

If the problem isn't principally an academic one, then you should speak to your College Advisor. Each graduate student is assigned a college advisor who has various pastoral responsibilities and can assist with personal guidance and practical problem-solving (e.g. in dealings with agencies outside the college on behalf of students when so requested by students). Colleges also have various appointees with specific pastoral and welfare responsibilities, e.g. advisors to women students, chaplains, resident assistant deans appointed from the postgraduate community, etc. There are often part-time college nurses on site and all students are registered with college doctors based at nearby surgeries. Domestic bursars are charged with meeting special living needs, e.g. in respect of students with disabilities or students who fall ill or students in need of emergency accommodation. The head of college also often plays a role in ensuring that students are settled and adequately supported.

The Middle Common Room (college graduate student union) often has its own welfare officer who acts as a source of information and an advocate. The tradition of extensive college-level peer support in academic matters extends to non-academic matters as well. In general the relatively communal aspect of college life makes for extremely easy access to confidential support in respect of non-academic matters, including support from people who know the student well, as well as more anonymous advice and support from professionals when necessary.

**University**

The University offers a counselling Service to help you address personal or emotional problems that get in the way of having a good experience at Oxford and realising your full academic and personal potential. They offer a free and confidential service. For more information visit: [www.ox.ac.uk/students/shw/counselling/](http://www.ox.ac.uk/students/shw/counselling/)

There is also range of services led by students are available to help provide support to other students, peer support, OUSU Student Advice Service and Nightline. For more information visit: [www.ox.ac.uk/students/shw/peer/](http://www.ox.ac.uk/students/shw/peer/)

The Equality and Diversity Unit supports a network of over 300 harassment advisors in departments/faculties and colleges and a central Harassment Advisory Service. For more information on the University’s Harassment and Bullying policy and the support available for students visit: [www.admin.ox.ac.uk/eop/harassmentadvice/](http://www.admin.ox.ac.uk/eop/harassmentadvice/)

The Faculty has two harassment advisors whom students and Faculty may contact for advice:

Sue Bright, New College
Tel No: 01865 289050
Email: Sue.Bright@law.ox.ac.uk

Roderick Bagshaw, Magdalen College
Tel No: 01865 276078
Email: Roderick.Bagshaw@law.ox.ac.uk

For information on a variety of issues relating to health and welfare, you can also consult the University webpage at [http://www.ox.ac.uk/students/welfare](http://www.ox.ac.uk/students/welfare) This covers subjects such as general health, disability, counselling and student-led support.
Support for Students with Disabilities

The University and colleges can offer support to students with disabilities in a number of ways. These are summarised in the University’s Disability Equality Duty, which is reproduced at the end of this Handbook. Please contact Ms Emma Gascoigne in the first instance:

Ms Emma Gascoigne
Personnel Officer
Law Faculty
St. Cross Building, St. Cross Road
Oxford OX1 3UL
Tel No: 01865 281622
Fax No: 01865 271493
emma.gascoigne@law.ox.ac.uk

Mr. Paul Burns
Academic Administrator Faculty
St. Cross Building
St. Cross Road
Oxford OX1 3UL
Tel No: 01865 271495
Fax No: 01865 271493
paul.burns@law.ox.ac.uk

The Disability Contacts work with the University Disability Staff and other bodies, such as the Bodleian Law Library, to help facilitate students’ access to lectures, classes, and tutorials, and access to information. The Contacts are also involved in an ongoing programme to identify and promote good practice in relation to access to teaching and learning for students with disabilities within the Faculty, and to ensure that the Faculty meets the requirements of the Equality Act (2010).

Education Committee and the Proctors

The University’s Education Committee is principally concerned with policy matters relating to teaching, learning, and assessment, but it is also the body which can grant dispensations from the regulations in certain instances (though in such situations a student’s college will normally write to the Education Committee on the student’s behalf – the student does not write direct). Further information about the Education Committee and its activities can be found at http://www.admin.ox.ac.uk/edc/

The Proctors are responsible for ensuring that regulations are implemented and investigating complaints by members of the University. The activities they regulate and the regulations they enforce are set out in detail in the documents on the Webpage ‘Essential information for students’ at http://www.admin.ox.ac.uk/proctors/info/ The Proctors’ and Assessor’s Memorandum in particular covers an extensive range of subjects, including disciplinary procedures, welfare matters, and a number of University policies which are referred to in the policy statements section below.

OUSU

The Oxford University Student Union exists to provide a number of student services, ranging from enhancement of your experience whilst a student to protection of your ability to study should you encounter financial, academic or health-related difficulties. For further information about all its activities, please refer to its website at http://ousu.org/

Alumni Relations

As part of the University’s 190,000-strong alumni community, you can take advantage of our varied alumni programme to stay involved. Whether your interests lie in further study, building a career, travel, or something else, Oxford’s alumni programme has something to offer everyone. For more information, please visit: www.alumni.ox.ac.uk All law students at Oxford are members of both a college and the University and therefore they have shared allegiances.
Undergraduate alumni are inclined towards contacting their colleges for most alumni matters yet increasingly become involved with Law Faculty offerings for professional interaction and networking. Because the Faculty of Law organizes and provides all graduate supervision and runs the postgraduate taught courses, graduate students tend to have stronger ties with the Faculty.

The Faculty of Law is eager to maintain contact with all law alumni, including those who go on to practice law from other Oxford faculties. Benefits of staying in touch with the Faculty’s alumni programme include:

- Opportunities to attend alumni reunions and professional networking events. The Faculty organises events, both social and professional, which take place in the UK and internationally. We have previously held events in the United States, Canada, India, Singapore, Hong Kong, China, and Australia and, due to their popularity, we plan to increase these events in the years ahead.
- Receiving copies of the Faculty’s annual alumni magazine, Law News, and the termly electronic e-bulletin to keep you up-to-date with Oxford news.
- Joining the group ‘Oxford University Lawyers’, via LinkedIn, which offers exclusive membership to all Oxford students, staff, and alumni. This provides members with the chance to share discussions with other Oxford law alumni across the world. Our major benefactors often post their news and job advertisements on the group’s page as well.
- Professional support and advice. We work closely with the Careers Service and our benefactors to help our alumni achieve their full potential in the workplace. Amongst other initiatives, the Faculty has founded the networking group Oxford Women in Law (OWL) which will assist female alumni working in field of law to network and find mentors.

To ensure that you are on our mailing list, or to enquire about organising an alumni event, please contact: Dr. Elizabeth Hodges, Donor Relations Coordinator, Faculty of Law, St. Cross Building, and St Cross Road, Oxford or by e-mail at elizabeth.hodges@law.ox.ac.uk. Finally, should you know of any Oxford Alumni who are not in contact with us but would like to be, please forward their contact details to us.

**Careers**

Graduate students who have academic careers in mind may be able to obtain information about suitable vacancies from their tutors and supervisors. Academic posts are advertised in The Times Higher Education Supplement and in some other national newspapers. The Oxford University Careers Service, 56 Banbury Road, maintains comprehensive information on almost every career and notifies details of vacancies through its weekly newsletter The Bridge to those registered with it. For more information see www.careers.ox.ac.uk/

**The Research Community in Oxford**

The Law Faculty is home to a thriving community of research students. Students are encouraged to be involved in all aspects of academic life, including teaching as well as research. The Faculty has developed various opportunities, both formal and informal, for students to gain exposure to these facets of scholarly life.

**Teaching Opportunities**

Both for material reasons and in order to gain experience, you may want to do some teaching during your period as a research student. Research students are permitted to undertake
teaching for the Faculty once they have transferred to D.Phil. status, and may undertake teaching for other institutions prior to transfer provided that such undertakings have the support of their supervisor and do not involve a time-commitment in excess of six hours' teaching per week. There is a long tradition of informal arrangements for teaching by graduate students in the University, and the Faculty now has a programme of Graduate Teaching Assistantships (GTAs) for students in areas of need specified by the Faculty’s subject convenors. GTAs are awarded £1000 by the Faculty and are expected to provide up to 48 hours of tutorial teaching over the course of the academic year, and may teach up to the weekly limit on paid work undertaken by graduate students specified by the University (including preparation and marking time). GTAs may, in exceptional circumstances, and with the permission of the Graduate Studies Committee, hold GTA positions in tandem with other posts as long as the total teaching hours per week is within the limit specified by the University. The teaching itself will be paid for by colleges at senior tutors' rates (approximately £20 per hour of tutorial time). These positions are competitive and applications are due in Trinity Term (you will be advised of the precise dates in due course). More details will be distributed over the law postgraduate e-mail list, as will announcements about other teaching opportunities during the year. At the time of publication of this handbook, the University’s weekly limit on paid work undertaken by graduate students is still under review; details of the limit ultimately agreed will be circulated to all graduate students once known.

The Faculty runs a teacher training course every year for research students. It generally takes place on Tuesday of Week 6 in Trinity Term. Information about this event will be circulated on the law-research maillist in a timely manner. Completion of the course is required for GTAs and research students who wish to be listed on the Faculty’s Teaching Register, a resource for Faculty members to consult if they find themselves in need of college tutors and other teaching support. Students who have completed this course will be given a certificate which must be produced whenever any offer of employment is made. A letter from a student's supervisor must also be presented, which addresses the question whether the teaching obligation will endanger the punctual completion of the thesis. Students may not teach beyond the University limit referred to above. Students who have completed the teacher training course are encouraged to register themselves on the Teaching Register via their ‘My Oxford Law’ log in to the intranet.

Research Assistance Opportunities

DPhil students can undertake research assistance at the request of Faculty members. Requests for research assistance may be advertised on the Faculty email lists; payment will be £14.80 per hour (inclusive of holiday pay). You may not undertake work as a Research Assistant until you have passed your Qualifying Test. The Law Faculty will not fund more than 120 hours research assistance by any student in one year and students are restricted to the weekly limit on paid work undertaken by graduate students as referred to in 1.1 above. Since claims for payment are submitted after the work is done, it is your responsibility to make sure that you do not go over the limit. Please note that you may not work as a research assistant for your own supervisor without the consent of the Director of Graduate Studies (Research).

Restrictions on working

PRS, MPhil, and MSt students are not permitted to undertake teaching for the Faculty but can undertake up to eight hours’ paid work per week and can be employed by the Faculty up to that limit for work other than teaching.
DPhil students can undertake up to eight hours' paid work of any kind (including teaching) per week and can be employed by the Faculty up to that limit. These are the Faculty's guidelines; the University guidelines for research students are broader and simply stipulate that students on research courses (such as a DPhil) are advised that any paid work should still allow them to spend at least 40 hours per week for a minimum 44 weeks of the year on their studies.

**Work Permits**

If you want to do any work beyond a very limited amount of teaching and you come from outside the European Union, you are obliged to get a work permit. In practice the acquisition of short-term permits for intra-University work is usually reasonably straightforward. For general immigration and employment advice you are advised to contact the Work Permits Desk of the University. More information can be found at [http://www.admin.ox.ac.uk/personnel/permits/news/](http://www.admin.ox.ac.uk/personnel/permits/news/) (there is a link on the right of the page entitled Employing Overseas Students which is the most directly relevant).

**Visa Information**

You have a responsibility to ensure that you comply with the conditions of your visa. For advice to help you make sure that you meet the necessary requirements and all matters relating to visas, please refer in the first instance to the webpage at [http://www.ox.ac.uk/students-visa](http://www.ox.ac.uk/students-visa)

**Discussion Opportunities**

Self-sustaining discussion groups are an essential part of the life of our graduate school. They are an important support to research. Knowing what others are doing and telling others what you are doing will help your work. For some years there has been a small fund through which the Law Board has met the minor expenses of running such a group.

A number of discussion groups are already in existence and their meetings are publicised by e-mail and on the web. Postgraduates who wish to set up a discussion group should consult [http://www.law.ox.ac.uk/postgraduate/discussion_groups.php](http://www.law.ox.ac.uk/postgraduate/discussion_groups.php) for more information on the process. Annual grants are normally available for discussion groups.

**Tuesday Research Lunch**

There are usually fortnightly lunches during term time for research students to discuss their research with a more generalized audience. These lunches also provide a forum for discussing common issues of interest to research students. Past topics have included academic recruitment, the publishing process, the specifics of the Oxford research pyramid, the use of legal databases and the process of ratification of the European Constitution.

**Developing as a Research Student**

As a doctoral student at Oxford you will need to combine detailed subject knowledge with thorough training in relevant research methods and techniques, as well as general research management skills, professional knowledge and career development. This combination of skills, knowledge and training is intended to help your research and also to enhance your personal and professional development and employability. You will have access to a wide range of training whilst undertaking your research, including:
1. Research methods training within the Faculty (the Course in Legal Research Methods)

2. Training open to doctoral students across the social sciences via the Research Methods Hub

3. An Academic and Professional Development Programme (APDP) organised by the Social Sciences Division and aimed at doctoral students and early career researchers

4. Training offered by University providers such as the Careers Service, IT Services and Bodleian Library

Further information about the Course in Legal Research Methods is provided in section 4, below. Further information about all four of the resources listed above is contained in Appendix 5, Research Development, towards the end of this Handbook.

Publication Opportunities

From the beginning, you should keep one eye on the goal of publishing your work. Many doctorates are published, frequently by Oxford University Press, and many research students publish articles during their degree work. Even shorter theses sometimes become books, while others come out as articles or series of articles. It is a matter of pride to us to know that so much of the research which is done here succeeds in making this permanent contribution to the study of law. Some people make the mistake of thinking that they will have to exclude from their thesis anything that they have published in the course of their research. This is not right. **We encourage you to publish your work during your research, and to include it in your thesis.** There is a different bar, which is quite distinct, namely that there are strict rules against trying to get more than one degree wholly or partly with one piece of writing.

Plagiarism

The work that you present for your examination (this includes assignments, projects, dissertations and examination papers) must be your own work and not the work of another individual. You should not quote or closely paraphrase passages from any source (including books, articles, webpages, lecture or seminar papers or presentations, or another student’s work), without acknowledging and referencing that source. If you do present someone else’s work as your own work, you are committing plagiarism. That is cheating and the Faculty and the University treat any alleged offence of plagiarism very seriously. Information about what counts as plagiarism, how to avoid plagiarism etc., is given in this section.

If you are unsure how to reference your work properly, and would like further advice, you should contact your Tutor or Supervisor, or the Director of Graduate Studies. Please also see [http://www.ox.ac.uk/students/academic/goodpractice/](http://www.ox.ac.uk/students/academic/goodpractice/) for more information (including an online tutorial) on plagiarism that has been developed by the University’s Educations Standards and Policy Committee. There are some particular areas of risk:

**Getting ideas from other students’ work.**

Students sometimes "borrow" work from other students. If the work is directly copied then this will clearly be an obvious form of plagiarism but you also need to be aware that taking the structure and ideas from this work can also be plagiarism unless the source is acknowledged. Although it may sometimes be helpful to see how others have tackled issues, an important part of the learning exercise in Oxford is to work out how to present an answer yourself. This
is often an intellectual struggle but it is an important part of the educational process. By borrowing the work of others you therefore not only risk plagiarism but you are also less likely to develop your own intellectual abilities fully.

**Articles etc.**

You will be expected to read many articles as part of your tutorial preparation. Students often find it difficult to know how to incorporate these into their own written work. The temptation is there to "lift" bits from the introduction and conclusion of the article, or odd sentences from it. Usually, an article will be presenting an argument which is, to some extent, original and the author makes the case for this argument in the detailed text. You may wish to use this article in a variety of different ways but it is important to bear in mind that it is not only verbatim quotations and paraphrases that need to be properly referenced but also the overarching argument that the author makes. Therefore, even if you are not using any of the detailed wording of the article, you must still acknowledge the author's intellectual input if you are drawing on the argument that (s) he makes.

**A brief example**

It can therefore be argued that proprietary estoppel, like wrongs, unjust enrichment and other non-consensual sources of rights, always gives rise to an underlying personal liability which may, in some circumstances, be coupled with a property right. As A's personal liability will persist after a transfer of the land in respect of which the proprietary estoppel claim arose, it may well be that B has no need of a property right to protect his reliance: instead B is adequately protected through his personal right against A.

**Plagiarised**

Proprietary estoppel always gives rise to personal liability and may also generate a property right, but a person to whom a representation is made will not always need a property right to adequately protect his reliance.

(This is plagiarism. Even though there is little verbatim copying it paraphrases the argument of Bright and McFarlane without acknowledging the source of this argument.)

“Proprietary estoppel, like wrongs, unjust enrichment and other non-consensual sources of rights, always gives rise to an underlying personal liability”¹ and sometimes the courts will give a property right if necessary to protect reliance.

(This is also plagiarism. Although the first part of the sentence is correctly attributed, the implication is that the second part is the original idea of the writer.)

**Non-Plagiarised**

Bright and McFarlane argue both that proprietary estoppel gives rise to personal liability and, further, that this will sometimes be coupled with a property right, but only if it is necessary to protect the reliance of the person to whom the representation was made.²

---

(This is not plagiarism as it clearly attributes the whole of the argument to Bright and McFarlane, and cites the source).

**Textbooks and Cases**

A particular challenge for law students is how to use text books correctly. The most obvious form of plagiarism is where students closely follow the wording of textbook writers. This often occurs (unintentionally) where students have taken notes from a textbook and then use these notes to form the basis of their essay.

It also occurs where students use the structure adopted by a text book writer in order to organise the essay.

By way of illustration, the author of a text book may set out that a general principle can be manifested in one of 3 ways, and then set out those 3 ways. To the student, this may appear uncontroversial and as ‘the only’ way that the topic can be understand. It is likely, however, that other writers will present the material differently. The breakdown of the principle into those 3 ways is the author’s work, and if this structure is adopted, the author must be acknowledged.

Students often use text-books too closely without being aware that this constitutes plagiarism and will say to tutors: “…but X put it so clearly and I could not put it better”, or “…lots of writers break down this principle into those 3 ways”. This does not justify plagiarism. If a text book writer is being relied on, the writer must be acknowledged.

The same applies with respect to cases. The reasons for citing a case are therefore two-fold: first, as an authority for a proposition of law, in which case you will generally be citing the case itself; and second, as the source of a statement about the law, in which case you will generally be citing the court or a judge.

**Four Research Degrees**

**Important Note**: If you have any questions about your degree that are not answered here, or if you have any problem, please contact Geraldine Malloy or the Director of Graduate Studies for Research. Geraldine Malloy can provide you with the forms you will need for the various steps in your degree, or you can find them at [http://www.ox.ac.uk/students/academic/graduates/forms/](http://www.ox.ac.uk/students/academic/graduates/forms/) Your supervisor can advise you on progress through your degree, and in particular on the academic standards that you must reach. But remember that administration of the degree is not the supervisor’s job. It is your responsibility to complete the requirements for your degree, and it is the Faculty’s job to support you, and to provide any advice that you may need about the requirements

The Faculty offers four research degrees. The first year of research is substantially similar for all four degrees but then leads to different outcomes depending on the degree registered for. Detailed regulations for all the degrees can be found in the Examination Regulations (‘the Grey Book’) which you will be given a copy of when you commence your studies, and which can be found online at [http://www.admin.ox.ac.uk/examregs/](http://www.admin.ox.ac.uk/examregs/)

The following is a summary of the most relevant points in those regulations together with practical advice on details such as transfer materials, submission deadlines, etc.
The DPhil
The doctorate requires a thesis of up to 100,000 words. It should be completed in three or at the most four years. The thesis must make a significant and substantial contribution to its field. The examiners assess the contribution of the thesis having regard to "what may reasonably be expected of a capable and diligent student after three or at most four years of full-time study."
Students generally reach DPhil status by two routes: either they are admitted initially as Probationer Research Students and then transfer to DPhil status; or they complete the MPhil or MSt in Legal Research and are then readmitted to DPhil status. It is also possible to transfer from MLitt status to DPhil status, but this is unusual. Further information about transfer/readmission to DPhil status is given below in sections.

The MLitt
The MLitt requires a thesis of up to 50,000 words in length. It is completed in two or at most three years. The thesis must make a worthwhile contribution to knowledge and understanding within its field. In parallel with the provision for the doctorate, the examiners make their judgment bearing in mind what is reasonably to be expected of a capable and diligent student after two or at most three years of full-time study.

The MPhil
The MPhil constitutes the second year of the taught master’s programme, the BCL, MJur or MLF, and can only be taken by a student who has completed one of these degrees. The MPhil requires a thesis of up to 30,000 words and must be completed in three terms.

The MSt in Legal Research
The MSt requires a thesis of up to 30,000 words and is in most respects identical to the MPhil but does not require applicants to have previously completed the BCL or MJur and allows students up to five terms to complete the thesis (though students seeking to go on to DPhil status after completion of the MSt are encouraged to submit the thesis within three terms).

Common First Year
Every research student begins work as either: 1) an MPhil (following completion of the BCL or MJur, 2) an MSt student, or 3) a Probationer Research Student (PRS). In their first year of research, all three sorts of research students will be doing very much the same thing, whatever their ultimate objective. All will complete the Course in Legal Research Method and will write a substantial piece of research work. Participation in the Course in Legal Research Method (CLRM) is one of the conditions for being granted the Degree of MPhil or of MSt, or of being allowed to proceed from the status of Probationer Research Student to that of full DPhil Student or full MLitt Student. Please note that the Course in Theory & Method of Socio-Legal Research at the Centre for Socio-Legal Studies may also be taken in full or partial satisfaction of the requirement. This would be suitable for students undertaking partly empirical research. Further details of the CLRM can be found on page 52 below. More general information about how students can develop their research is provided under Researcher Development, at the end of this handbook.

Residence
The minimum residence requirement for the MSt is three terms of full-time supervised research in Oxford, for the MPhil three terms, for the MLitt six terms, and for the DPhil six terms. In the case of the DPhil, the requirement can be reduced to three terms if the candidate
has already been in relevant postgraduate residence for at least three terms, as for example where a student has completed the BCL/MJur/MLF or MSt/MPhil. There is a narrow discretion to grant dispensation from periods of residence, as for example, where your research requires you to travel abroad. Subject to that, you cannot obtain your degree unless your college certifies that you have fulfilled the residence requirements. Residence for a term requires that you be in Oxford for 42 nights during the term in question, “term” then being defined as the extended, not the full term. There are provisions for counting vacation residence instead, but they do not allow you to squeeze the equivalent of more than three terms into any one year. Most people remain in residence longer than is minimally required. Being “in residence” does not only mean living in Oxford. For the purpose of a research degree, it means being engaged in full-time supervised research in Oxford. You may not engage in any form of employment that is incompatible with that requirement, during your period of residence. Various forms of employment are compatible with the requirement, including limited amounts of teaching (which may actually enhance your research work). Work that will not hinder your research is fine, but you must discuss any substantial employment with your supervisor and the Director of Graduate Studies. See sections above for further information about working.

Fees

Students for the MSt in Legal Research and the MPhil both pay a minimum of three terms of fees and will pay additional fees if holding MSt or MPhil status beyond three terms. MLitt students pay six terms of fees. Please note this point: if you are on the register for the MSt or MPhil for additional terms and receive supervision then you will be required to pay fees. For information on your fee liability you are strongly advised to refer to the Examination Decrees and Regulations of the University [http://www.admin.ox.ac.uk/examregs/52-00_APPENDIX_I.shtml](http://www.admin.ox.ac.uk/examregs/52-00_APPENDIX_I.shtml)

DPhil students pay up to nine terms of fees. If they have transferred to DPhil status from Probationer Research Student status or MLitt status then the nine terms includes fees paid whilst holding either status. Students admitted to the DPhil following completion of the MPhil or MSt in Legal Research may count three terms of fees paid during the course of either master’s degree towards the nine term DPhil liability. For DPhil students starting research study in 2011/12 or later, the University will apply a termly continuation charge payable beyond 9 terms fee liability. [http://www.ox.ac.uk/admissions/graduate/fees-and-funding/tuition-and-college-fees/continuation-charges](http://www.ox.ac.uk/admissions/graduate/fees-and-funding/tuition-and-college-fees/continuation-charges)

Academic Dress

The full regulations concerning academic dress (Subfusc) can be found at [http://www.admin.ox.ac.uk/statutes/regulations/48-012.shtml](http://www.admin.ox.ac.uk/statutes/regulations/48-012.shtml) However, we would suggest you refer to information which will be provided by your college as this is likely to be more accessible.

Dates of Term

Information about term dates can be found at: [http://www.ox.ac.uk/about/facts-and-figures/dates-of-term](http://www.ox.ac.uk/about/facts-and-figures/dates-of-term)

Supervision

The Law Board will appoint someone to supervise your work. Some students have joint supervisors and many work with more than one supervisor during their degree. In providing you with a supervisor, the Law Faculty offers you something extremely valuable: a reader who will respond seriously and critically to your work. The supervisor will also advise you on your
topic and how to develop it, and may guide you in your work in a variety of other ways. It is
the single most important resource the Faculty provides. Your supervision arrangement is the
responsibility of the DGS(R). If you think that a change would be helpful, bear in mind that a
change in supervision is not a crisis; if the Faculty can help you with your project through a
different supervision arrangement, please contact the Director of Graduate Studies for
Research students. For further information see the Faculty’s Statement on Supervision of
Research Students (http://www.law.ox.ac.uk/postgraduate/research.php then go to the final
item on the list of items entitled ‘For research students’).

Graduate Supervision System (GSS)

At the end of each term, your supervisor(s) will submit a report on your academic progress.
To facilitate this reporting, the University operates an online Graduate Supervision System
(GSS). Within this system, you have the opportunity to contribute to your termly supervision
reports by reviewing and commenting on your own progress.

You are strongly encouraged to take the opportunity to review and comment on your
academic progress, any skills training you have undertaken or may need to the future, and
on your engagement with the academic community (e.g. seminar/conference attendance or
any teaching you have undertaken).

Your supervisor(s) will review and comment on your academic progress and performance
during the current term and assess skills and training needs to be addressed during the next
term. Your supervisor should discuss the report with you, as it will form the basis for feedback
on your progress, for identifying areas where further work is required, for reviewing your
progress against an agreed timetable, and for agreeing plans for the term ahead.

When reporting on academic progress, students on taught courses should review progress
during the current term, and measure this progress against the timetable and requirements
for their programme of study. Students on doctoral programmes should reflect on the progress
made with their research project during the current term, including written work (e.g. drafts of
chapters) and you should assess this against the plan of research that has been agreed with
your supervisor(s).

All students should briefly describe which subject-specific research skills and more general
personal/professional skills they have acquired or developed during the current term. You
should include attendance at relevant classes that form part of your programme of study and
also include courses, seminars or workshops offered or arranged by your department or the
Division. Students should also reflect on the skills required to undertake the work they intend
to carry out. You should mention any skills you do not already have or you may wish to
strengthen through undertaking training.

If you have any complaints about the supervision you are receiving, you should raise this with
your Director of Graduate Studies. You should not use the supervision reporting system as a
mechanism for complaints.

Students are asked to report in weeks 6 and 7 of term. Once you have completed your
sections of the online form, it will be released to your supervisor(s) for completion and will
also be visible to your Director of Graduate Studies and to your College Advisor. When the
supervisor’s sections are completed, you will be able to view the report, as will the relevant
Director of Graduate Studies and your college advisor. Directors of Graduate Studies are
responsible for ensuring that appropriate supervision takes place, and this is one of the mechanisms they use to obtain information about supervision. College advisors are a source of support and advice to students, and it is therefore important that they are informed of your progress, including concerns (expressed by you and/or your supervisor).

To access the GSS, please visit http://www.gss.ox.ac.uk/ you will be able to log on to the site using your single sign-on details. Full details of how to use the site are provided at the on-line help centre, however, should you need additional support, please contact your Graduate Studies Administrator in the first instance.

Meetings
A question frequently asked is, ‘How often should I see my supervisor?’ Simple as the question sounds, it admits of no fixed answer. As you define your project, you may need to meet frequently. And in the period immediately before submission the same may be true. But when the work is under way there may be relatively long periods when you are making progress without needing to meet. While supervisors take different approaches, a meeting with your supervisor will ordinarily happen when you submit work. So the timetable is largely in your hands, and the way to make the most of your supervision is to submit written work often. In most cases, it is a mistake to go a month without submitting a substantial piece of written work. It helps a lot to go to any lectures or seminars which are being given by your supervisor or your supervisor’s group.

The University Education Committee requires supervisors to:

• meet students regularly and return submitted work with constructive criticism within a reasonable time;
• be accessible to students at appropriate times when advice is needed;
• assist students to work within a planned framework and time-table;
• monitor students’ ability to write a coherent account of their work in good English;
• attempt to avoid unnecessary delays in the progress of the research;
• pursue opportunities for students to discuss their work with others in the research community (including the presentation of research outcomes where relevant) at University, national and international level;
• arrange appropriate temporary supervision for the student during periods of leave.

Supervisor Away
If your supervisor is away for a term or more you will almost certainly require to be assigned to a new supervisor, usually only until the other returns. There is generally plenty of time to discuss the change, and where there is time your supervisor should talk the matter over with you. It is often possible to make informal arrangements which suit everyone, but it is essential that such arrangements be formalized through the Graduate Studies Administrator using the GSO.25 change of supervisor or appointment of joint supervisor form at http://www.ox.ac.uk/students/academic/graduates/forms/ The Law Faculty cannot discharge its responsibilities through informal arrangements of which it knows nothing. The Faculty must at all times know who is supervising you and, except for very short periods, there must be no time during which you have no supervisor in Oxford.

Vacations
The traditional distinction between term and vacation means very little for those engaged in research. Work, if anything, intensifies when undergraduate teaching stops. You may need
to make some allowance for the fact that after term supervisors are themselves desperate to get on with their research, which sometimes also means they’re going off to use libraries and other facilities in other places. Once again, the best solution is to talk things over with your supervisor. A prolonged absence, even during vacation, triggers the steps discussed in the previous section. Though the rhythm may change, supervision does not stop during the vacation.

**Suspensions, Extensions and Dispensations**

The Law Board has power to stop the clock by granting a suspension of status. If for any good reason you are temporarily not able to study, you may apply through the Graduate Studies Administrator; the relevant forms are available from the webpage [http://www.ox.ac.uk/students/academic/graduates/forms/](http://www.ox.ac.uk/students/academic/graduates/forms/). The Board can grant a maximum of six terms’ suspension, **but never more than one at a time**. Suspension is different from extension. Extension allows more time. Suspension stops the clock. Students in receipt of scholarships (particularly AHRC scholarships) should ensure that they also secure the permission of the scholarship body for the suspension of time.

In exceptional circumstances, MLitt and DPhil students may also apply for extensions of time for anything up to six terms. **Extensions of time will only be granted one term at a time**, unless there is an exceptional reason for granting more, but in no cases should more than three terms of extension be granted at any one time. Forms for applying for extension of time can be found on the same webpage as those for suspension of status. **Students should be clear that extensions are not an entitlement** and will only be approved if there is felt to be good cause for granting the extra time and if the application has the support of the student’s supervisor and college (the same applies for suspension of status). Students in receipt of non-AHRC scholarships should ensure that they also secure the permission of the scholarship body for the extension. Students in receipt of AHRC scholarships should note that the AHRC does not approve extensions of time other than in the most exceptional circumstances, and failure to submit by the prescribed four year deadline (for DPhil students) may lead the AHRC to withdraw future funding for Law Faculty students.

We make no attempt to set out in detail in this handbook all the powers to extend deadlines and waive other rules. Very few people will need their help. For those who do, there are two guiding principles. The first is that provided you do have a genuine and strong reason for needing the dispensation it will probably be possible for you to get it. The second is that your chances of getting the help you need will be greatly improved if you talk to someone about it well before the burdensome rule operates. Take advice early. You can talk to your supervisor about it or to your college advisor, or, if that is not appropriate in your case, you can go straight to the Director of Graduate Studies (Research).

**Fieldwork Safety and Training**

**Fieldwork**

Many students will, as part of their course, be required to undertake fieldwork. Fieldwork is considered as any research activity contributing to your academic studies, and approved by your department, which is carried out away from the University premises. This can be overseas or within the UK. The safety and welfare of its students is paramount to the University. This includes fieldwork and there are a number of procedures that you must follow when preparing for and carrying out fieldwork.
Preparation

Safe fieldwork is successful fieldwork. Thorough preparation can pre-empt many potential problems. When discussing your research with your supervisor please think about the safety implications of where you are going and what you are doing. Following this discussion and before your travel will be approved, you will be required to complete a travel risk assessment form. This requires you to set out the significant safety risks associated with your research, the arrangements in place to mitigate those risks and the contingency plans for if something goes wrong. There is also an expectation that you will take out University travel insurance. Your department also needs accurate information on where you are, and when and how to contact you while you are away. The travel assessment process should help to plan your fieldwork by thinking through arrangements and practicalities.

Training

Training is highly recommended as part of your preparation. Even if you are familiar with where you are going there may be risks associated with what you are doing.

Departmental course (run annually):

- Short basic fieldwork safety awareness session covering personal safety and planning tips. Post fieldwork students are invited to attend to share their experiences. All students carrying our fieldwork are expected to attend this.

DTC courses (run termly)

- Preparation for safe and effective fieldwork in Social Sciences. A half day course, for those carrying out medium to high risk research in rural and urban contexts.
- How Do We Deal with What We Hear? Managing Vicarious Trauma in Social Science Research. For research in traumatic or distressing topic areas.

Safety Office courses (run termly)

- Emergency First Aid for Fieldworkers.
- Fieldwork Safety Overseas: A full day course geared to expedition based fieldwork.

Course in Legal Research Method

Participation in this course is compulsory for Probationer Research Students, MSt in Legal Research students, and MPhil in Law students.

The aim of this course is to assist our first-year or one-year research students in establishing a sound methodological base for their legal research and writing in its early stages. This we seek to achieve by providing a focus for structured and purposive discussion between graduate students and members of the Faculty about the methodology and problems of legal research and writing. This serves to emphasize the community of concerns between graduate students and law teachers in their legal research and writing activities, and helps to avoid or dispel the sense of intellectual isolation, which can inhibit the development of legal research work.

Teaching Programme

The course has two components. The first component is a series of seminars on various aspects of legal research method given by members of the Faculty in their areas of expertise. The second component is that each student must do an individual assessed exercise which consists of an oral and written presentation. These are designed to help individual students with the planning and development of their future research work and legal writing in their chosen area of work. The oral presentations will be given as part of the two day Oxford Graduate Legal Research Conference normally scheduled of the first weeks of Trinity Term (dates to be confirmed).

Further information about the course (including details of seminars, attendance requirements, and details about the assessed exercises) can be found on the Course in Legal Research Method at https://weblearn.ox.ac.uk/portal/hierarchy/socsci/law/clrm

Any students arriving in Oxford after the start of term should contact Geraldine Malloy to ensure that they are on the relevant mailing list for students taking this course.

Research degree Keys Stages

The key stages that you must pass through during your research course are outlined in this section. Depending on the type and structure of your research course, these will include transfer, confirmation and submission. It is your responsibility to submit applications within the deadline. If you are unclear on the submission/approval process for a particular form please contact Geraldine Malloy.
Transfer from Probationer Research Student Status to DPhil or MLitt status

By the end of the fourth week of your third term as a PRS, you need to apply to transfer to full DPhil status (or MLitt status, if that is the qualification you are ultimately seeking). This transfer requires successful completion of the Qualifying Test, in which your project and your achievements so far are assessed by two members of the Law Faculty who will read your written submission and then arrange an interview with you.

You may, in exceptional circumstances, and with the support of your supervisor, apply to defer the date of PRS to DPhil status by writing to Geraldine Malloy. In no case may the materials for the Qualifying Test be submitted after the end of the fourth term from admission as a PRS.

The Purpose of Transfer of Status

The Probationer Research Student (PRS) status is intended to be used constructively, permitting a wise choice of the research topic to be made in the context of broader reading as well as preliminary research, helping the student to become accustomed to the rhythm of graduate work, and allowing for the acquisition of any specific skills appropriate to the research. The Transfer of Status assessment is to ensure that the student is making satisfactory progress in the development of the research, to ensure that the work is of potential D.Phil. quality, and that the methodology of the research is appropriate and practicable. The transfer process provides the opportunity for the student to discuss their work with two independent members of staff and to receive feedback. Broadly the assessment should show a plan for the thesis, which locates the research in the context of earlier work in the field, sets out the questions, hypotheses or issues on which it will focus, and describes and explains the methods by which these will be answered, tested or addressed. The assessment procedures are intended to remove the risk of failure and to reduce the risk of referral as far as possible, and must therefore be as rigorous as is necessary to achieve this.

The formal Regulations for Transfer of Status are set out in the general regulations of the Examination Regulations, and in the special regulations for individual subjects, grouped within their particular Division. Further information is also available in the Education Committee “Policy on Research Degrees” http://www.admin.ox.ac.uk/edc/policiesandguidance/policyonresearchdegrees/.

The Timing of Transfer of Status

The Examination Regulations state that PRS status can be held for a maximum of four terms for students commencing their studies from October 2011 onwards. However, Departments and Faculties are strongly encouraged by the University’s Education Committee to require students to transfer status sooner, and in the Law Faculty, transfer of status is normally required by the end of the fourth week of your third term as a PRS student.

How to Apply for Transfer of Status (the Qualifying Test)

Applications for transfer of status (QT) should be made using the GSO.2 and Law 2 forms obtainable from http://www.ox.ac.uk/students/academic/guidance/graduate/progression

Students are required to complete the forms and to provide supplementary information on development of both research specific and personal and professional skills during their time as a Probationer Research Student. Students are also required to indicate whether their
work requires research ethics approval. Both the student’s supervisor and College should then sign the form. Students in the Law Faculty will also be required to complete the supplementary LAW 2 form. Supervisors are asked [in consultation with their student] to suggest names of appropriate assessors and their willingness to act. The prospective assessors they will normally be academic members of staff working in the University of Oxford; only in exceptional circumstances will an external assessor be appointed. On the Law 2 form, you are also asked to indicate that you have successfully completed the Course in Legal Research Methods, the Course in Empirical Research Methods, or Theory and Methods in Socio-Legal Research (if you haven’t successfully completed the course at the point of applying for transfer, you will need to do so before your transfer can be approved).

The complete application for transfer of status should be submitted to the Graduate Studies Administrator by the end of week four of your third term as a PRS student.

Your transfer (QT) application should comprise the following items:

1. Thesis Title
2. Thesis Outline
3. Research Proposal (Part A - no more than 2,000 words (two copies))
4. Written (Part B - 10,000 words for DPhil, 6,000 words for MLitt - two bound copies)
5. Timetable for Completion
6. Bibliography
7. Research Ethics Forms (if applicable).

Part A The statement must map out a thesis which will make a significant and substantial contribution to its field, and the proposed work must fit comfortably within your remaining two or, at most, three years. Many candidates use up about a third of their 2,000 word allowance in a general description of their proposed thesis, saying in connected prose what they hope to achieve and why it matters. It is a good thing, though not essential, to be able to say briefly how things stand in your field, so as to show what advance you hope to make. The remainder of the word allowance can usefully be devoted to a provisional contents page, showing the titles of the chapters and giving a short account of what each will do. Everyone understands that you cannot at this early stage be bound by this, also that there may be some chapters which you are not yet able to see into with much clarity. Feel free to say that that is the case, if it is so. If you can outline the reasons for your uncertainty, so much the better. It is good to link this provisional contents page to a timetable. You need not go into great detail, but it is sensible to say roughly where you hope to be after one more year and how long you have set aside for writing up your final version. When it comes to confirmation of status towards the end of the second year, you will be asked for a more detailed schedule leading to completion.

Part B - A substantial piece of written work which will generally be intended to form part of the proposed thesis (or if not, at least be relevant to the subject of the thesis) and must be written using the format for theses in law (see pg. 41 below) 10,000 words for DPhil, 6,000 words for MLitt - two bound copies these must be securely and firmly bound in either hard or soft covers. Loose-leaf binding is not acceptable. Copies which are not securely bound will not be accepted. Your crucial task in the Part B submission is to show the reader that you can carry out the sustained argument that will be needed to accomplish the project you propose in your Part A statement. The best way to do that is usually to engage in an important part of the argument that the DPhil will present. The assessors will look to Part B for evidence that you have mastered the craft of serious legal writing and that you can conduct a complex argument
in an orderly, structured and lucid manner. The argument should be clear and cogent, and not written so as to be intelligible only to a tiny number of insiders. Keep in your sights a notional reader who is well-informed and well-grounded in the law but not an insider within your own particular field - as it might be, yourself when reading someone else’s article in a journal.

All submitted material and forms should be sent to Geraldine Malloy at the Law Faculty.

The Transfer Assessment

The Director of Graduate Studies /Graduate Studies Committee will appoint two assessors, taking account of the nominees proposed on the Law 2 form, neither of whom will normally be the student’s supervisor to read the transfer application and to interview the candidate. It is permissible for the same assessor(s) to be used for both transfer and confirmation of status, and this person may also act as the internal examiner for the D.Phil. viva voce examination. Students should normally expect to be interviewed within six weeks of submitting their transfer application, though this may be longer during the vacation periods due to availability of the assessors. You should make sure you are contactable during that period; and if you haven’t heard from the assessor within four weeks of the date on which you submitted the application, you are advised to contact Geraldine Malloy. The interview is not an official examination or viva, and sub fusc is not worn. The assessors will write a report and submit recommendations to the Graduate Studies Committee. Following their interview, students should normally expect to hear the outcome of their assessment within eight weeks from the date on which the assessors received the materials, though this may be longer during the vacation periods.

Instructions to Assessors

Assessors are asked to contact students as soon as reasonably possible to arrange a time for the interview, or to explain problems in doing so. Students find it an anxious wait, and may have good reasons for wanting the assessment completed as soon as possible (please let Geraldine Malloy the Graduate Studies Administrator know if there is a problem in this respect at the time of application).

Assessors are invited to consider whether the student is capable of carrying out advanced research, and that the subject of the thesis and the manner of its treatment proposed by the student are acceptable for transfer to D.Phil. Assessors should judge the application against the criteria for success defined below. They should aim to provide constructive criticism and advice to the student to identify and address deficiencies and thereby strengthen their proposed research project, rather than to present a judgmental verdict. Dismissive or aggressive remarks are not appropriate. An application to transfer to D.Phil. status must provide evidence that the applicant can construct an argument, can present material in a scholarly manner, has a viable subject to work on, and can be reasonably expected to complete it in 3-4 years. However, the assessors should judge the submissions in the light of the fact that they usually reflect 3 or 4 terms work and are made at the early stages of the research project. The written work will not necessarily be, or read like, a final thesis. Omissions, unpersuasive arguments, or missing perspectives are not fatal unless they seem to indicate an inability to reach the necessary standard. The research proposal and thesis structure need not be completely finalised, but the student should have clearly defined ideas of what the research questions are, and have possible ways to answer them.

The joint assessors’ report should be 1-2 pages in length, providing a permanent record of advice given to the student at this stage and a permanent indication of the student’s progress. It should normally include a summary of the points raised in the interview, feedback on the written work submitted prior to the interview, comments on the positive aspects of the
student’s work, as well as any concerns about the student’s progress and suggestions for the research going forward. Finally, for non-native English speakers, the report should indicate the assessors’ view of the student’s ability to present and defend the work in English.

Significant differences of opinion between the assessors will be adjudicated by the DGS and/or Graduate Studies Committee, in consultation with the assessors and supervisors.

**Criteria for Success**

For transfer of status to be approved, the student will need to be able to show that their proposed thesis and treatment represents a viable topic and that their written work and interview show that they have a good knowledge and understanding of the subject. Students must show that they are competent to complete and present their thesis in English. Below are examples of possible success criteria:

1. All required coursework materials have been submitted
2. Competence in both written and spoken English
3. The aims of the research are realistic and focused
4. Evidence of wide reading and critical analysis
5. Appropriate methodology and research techniques are proposed
6. Limitations to the research are addressed
7. It is clear how the research will develop for a D.Phil.
8. There is a suitable timetable for the research
9. The candidate demonstrates the progression of an argument
10. The candidate shows a scholarly and rigorous approach to research issues
11. The research topic and treatment meet the Division’s ethical standards
12. The written work and interview show that the candidate has a good overall knowledge and understanding of the subject
13. The University has adequate facilities (including supervision) to enable the research to progress
14. The student is capable of carrying out advanced research
15. The proposed schedule of work can be completed within three or at most four years for the D.Phil.

**Outcomes of Transfer of Status**

The assessors may recommend one of five outcomes, which must be considered and approved by the Graduate Studies Committee.

(i) Successful transfer – Accompanied by suggestions and advice for future progress

(ii) Revision of application – The assessors may request further minor clarifications before making a first recommendation. In such cases it should be possible to complete the additional work within the term of assessment

(iii) Referral for a second attempt at transfer (with or without a further interview) – This should normally involve the same assessors and take place within one term of the first attempt. If the first attempt is made in the fourth term or later of PRS status, a one-term extension of PRS status is automatically granted to allow the second attempt. This extension of PRS status does not affect the total amount of time permitted for registration on the D.Phil. The assessors should provide clear guidance on what needs to be done to improve the application prior to
the second attempt at transfer being submitted. This may require additional written work or other evidence, and possibly the appointment of an additional assessor.

Referral should not necessarily be seen as a failure, it may simply represent attempts to ensure that the student’s work is enhanced so that it is set on the best possible course.

(iv) Transfer to the MLitt Although the work presented was not suitable for transfer to D.Phil. status, nonetheless, the assessors felt it was strong enough for the lower award which is a less demanding and shorter time-scale research degree.

(v) Reject the application – The assessors cannot recommend transfer to either DPhil. status or the lower award, and thus it is recommended that the student should withdraw from the course.

At the first attempt at transfer only options (i)-(iv) will normally be chosen. At the second attempt, options (i), (iv) or (v) can be considered. (Only in exceptional circumstances may a third attempt at transfer be made, and this would require the support of the Graduate Studies Committee and approval by the University’s Education Committee).

If at the first attempt a student is transferred to the lower degree s/he may accept this, or may choose to retain PRS status and make a second transfer application the following term. If a student accepts transfer to the lower degree at the first attempt, or is transferred to the lower degree at the second attempt, s/he may exceptionally be permitted one further opportunity to transfer to D.Phil. status provided that sufficient time has elapsed (normally at least six months) to allow the possibility of significant improvement, that significant progress has been made, and that the student’s supervisor supports the application. In addition the student’s college and Director of Graduate Studies would also need to endorse the application. A student who is not granted transfer on the second submission is permitted to request that she or he be allowed to register retrospectively for the MSt. If your supervisor supports this request, and it is feasible to convert the research into an MSt in the time left (bearing in mind that MSt students have up to five terms on the register), then this is a viable option. However, the request will not be granted unless your supervisor agrees to supervise, or alternative supervision arrangements can be made. If transfer to MSt status isn’t feasible then, regrettfully, there are no further means by which you can continue as a research student in the Law Faculty.

If a student fails to transfer to D.Phil. status or to the status of the applicable lower degree after two transfer applications, s/he shall cease to hold the status of a PRS student and his/her name shall be removed from the Register of Graduate Students. In such circumstances, informal counselling, often involving the student’s college, should be an integral part of the procedures.

**Deferral of Transfer of Status**

Any student who has not applied to transfer status by the end of their fourth term will be required to attend a formal academic review meeting involving their supervisor(s) and Director of Graduate Studies (or at least one other member of academic staff who may or may not be a future assessor for Transfer of Status). The purpose of this meeting will be to review progress to date, and to draw up a clear timetable to ensure that Transfer of Status is successfully achieved within six terms as required by the *Examination Regulations.*
The student will also be required to apply for a formal deferral of Transfer of Status for one or two further terms using the form GSO.2b available from http://www.ox.ac.uk/students/academic/guidance/graduate/

Students are required to complete the form, which should then be signed by the student’s supervisor and College and be approved by the DGS.

In exceptional cases only, an extension of PRS status may be granted beyond six terms. Applications for such extensions should be again made using the form GSO.2b and will require the same approvals as above and, in addition, approval of the University’s Education Committee as it requires formal dispensation from the Examination Regulations. Any extensions to PRS status do not affect the overall time permitted for registration on the D.Phil.

**Admission to DPhil status after completion of MPhil or MSt**

To apply for admission to DPhil, you will need to complete the readmission form available from Student Self-Service (https://www.studentsystem.ox.ac.uk). The form will be pre-populated with details that the University currently has on record for you, such as your personal details and your previous qualifications, but you will need to enter details of the programme you intend to study and any changes to the data we hold in your record. You will need to submit this form (to the Graduate Admissions Office) by 23 January 2015: we appreciate this is very early in the year, and that you might not be quite sure at that point whether you do or don’t intend to carry on to doctoral study; we would recommend that if in doubt, you do at least submit this an application— if you then decide you don’t want to carry on to DPhil status you can simply withdraw, whereas if you don’t apply by the 23 January deadline, you can’t decide later in the year that you do, after all, want to continue to the DPhil. As well as the form, you will also need to submit by the 23 January deadline what is known as Part A of the application for readmission - a statement of the subject of your doctoral project in no more than 2,000 words. A detailed explanation of what is required is given above, those transferring from PRS to DPhil are required to submit the same document). Again, we appreciate that it is asking quite a lot of students to require them to have a doctoral proposal finalised so early and consequently, we will allow you to make minor revisions to the proposal before the Qualifying Test itself, which happens later in the year; but bear in mind that the proposal will be used by subject groups to determine whether they can provide supervision and provisionally offer you a place (conditional upon you obtaining either the MSt or MPhil and your performance in the QT), so needs to be as coherent and detailed as you’re able to make it at that point. Later in the year, before unconditional admission can be approved, you will need to demonstrate to your college that you have the requisite funds for your doctorate, in the same way as you were required to provide financial assurances prior to admission to the MPhil or MSt.

You are required to submit your MPhil or MSt thesis, GSO 27 form (appointment of examiners) and new DPhil proposal to the Research Degree Office at the Exam Schools, no later than the last day of the vacation following Trinity Term (usually a date in early October). Once submitted, your thesis and proposal will be sent to your examiners and you will be transferred to Probationer Research Student status (this is to ensure that you continue to hold student status whilst the examiners read the thesis and assess your application for transfer). **NB If you are able to do so, it is advantageous to submit your thesis significantly before the deadline;** that way, it may be possible for the assessment to take place and for your admission to DPhil status to be approved before the start of Michaelmas Term rather than our having to admit you to Probationer Research Student status – this can help in terms of...
simplifying your fee position and avoiding some complications regarding obtaining visas (for those who need them)

The thesis serves the same role as the Part B written submission that those applying for transfer to DPhil from PRS status submit and in the viva voce examination described below, the assessors will seek not only to determine whether you should be awarded the MPhil or MSt but whether they can recommend that you be transferred to DPhil status. Consequently, they must make one of the following recommendations: award of the MPhil or MSt and admission to DPhil status; award of the MPhil or MSt and referral of Part A for revision and resubmission; referral of the thesis itself for resubmission for the MPhil or MSt (they cannot recommend referral of the thesis but admission to DPhil). The recommendations will be made in a report which you will have access to and which you will be able to use in making revisions to the Part A proposal and/or the MPhil or MSt thesis.

If you are admitted to DPhil status, then you may incorporate your MPhil or MSt thesis into your final DPhil thesis (students are generally not permitted to submit materials for more than one degree but this is an exception to that rule).

If you are awarded the MPhil or MSt but referred on Part A, you will continue to hold PRS status and may make one further application for transfer to DPhil status. You should normally do so within three months from the receipt of the report and you must do so before the end of your sixth term as a PRS student. On this second occasion you will need to submit a revised version of Part A and forms GSO.2 and Law 2 as described above. The second assessment will normally involve the same assessors, though exceptionally, you may, with the approval of your supervisor, request different assessors, and they can dispense with the interview if they feel able to recommend transfer to DPhil on the basis of the revised Part A alone.

If you are referred back on your thesis, your PRS status will be suspended, and your MPhil or MSt status will resume. You may make a further application for admission to DPhil status following the same procedures as outlined above. For information on your fee liability you are strongly advised to refer to the Examination Decrees and Regulations of the University.

http://www.admin.ox.ac.uk/examregs/52-00_APPENDIX_I.shtml

Incorporating a Completed Thesis

As mentioned above, there is no bar to submitting work which you have published during your research work, but there is a general principle against trying to get an Oxford degree with or partly with work which has been submitted for another degree, whether at Oxford or at any other university. However, there are some exceptions; for law students the regulations work in the following way: a thesis/dissertation which has been submitted for the MPhil, MSt, or BCL/MJur/MLF can be incorporated in a subsequent DPhil thesis, but a thesis submitted for the MLitt cannot. A BCL dissertation can be incorporated in a subsequent MLitt but an MPhil or MSt thesis cannot. A BCL/MJur/MLF dissertation may cover the same area as a subsequent MPhil but the text of the former may not be incorporated directly into the text of the latter. In some cases people intend to incorporate their Oxford work in a thesis later to be submitted for another degree at another university. That is entirely a matter for that other university. Some permit that kind of incorporation, others do not.
Confirmation of DPhil Status

The Purpose of Confirmation of Status

The Confirmation of Status process allows the student to have an assessment of his/her work by two assessors, normally other than the supervisor(s), to give a clear indication of whether it would be reasonable to consider submission within the course of a further three terms, if work on the thesis continues to develop satisfactorily. However, successful confirmation of status should not be seen as being explicitly linked to the final outcome of the examination of the thesis.

The confirmation assessment is different to the transfer assessment. The assessors will be focusing on how the research is progressing, the quality of the draft chapters, and on the plan for completion. The assessors will therefore be looking to ensure that the student is making the appropriate amount of progress in the development of the thesis, so that submission will be achieved within three or at most four years. In doing so, they are also required to ensure that the student is not attempting to deal with an impossibly or unnecessarily large amount of material. The student should benefit from independent assessment of his/her work and should receive authoritative comments and suggestions on problems and how to address them. The assessors may be able provide guidance on how to better present the material, or on the use of concepts or methods. Even if the thesis is in good shape, the assessors may often stimulate valuable improvements to the thesis. However, the assessors may also identify any weaknesses in theory, research design, data collection and analysis, which may compromise the final thesis. It should also be remembered that the confirmation assessment is a test (which it is possible to fail), and receiving critical comments is often painful, and it may take some weeks to come to terms with them. Finally, the interview is a good opportunity to prepare for the vive voce examination of the thesis.

The formal Regulations for Confirmation of Status are set out in the general regulations of the Examination Regulations, and in the special regulations for individual subjects, grouped within their particular Division. Further information is also available in the Education Committee “Policy on Research Degrees” http://www.admin.ox.ac.uk/edc/policiesandguidance/policyonresearchdegrees/.

The Timing of Confirmation of Status

Students who entered the D.Phil. as a Probationer Research Student

The general regulations of the Examination Regulations state that all students should apply for confirmation of status within nine terms of their admission as a graduate student. However, in this Faculty students are required under the subject specific regulations to apply for confirmation of no later than three terms after the Qualifying Test.

Students who progressed to the D.Phil. from an M.Phil.

Students who have previously completed a M.Phil., (with a thesis is the same broad field as the topic for the D.Phil.) and have progressed directly to D.Phil. status, this normally means that confirmation of status should be applied for by the end of the third term of the D.Phil.

Deferral of Confirmation of Status

If a student is unable to apply for confirmation of status within the prescribed number of terms permitted by the Examination Regulations they must apply for a deferral of confirmation of
status, otherwise their student status will lapse and their name will be removed from graduate register. It is possible to apply for a deferral of confirmation of status for up to three terms (depending on provisions in Special Regulations), as long as the total number of terms from admission as a PRS student does not exceed twelve.

Any student who is considering applying for a deferral of confirmation of status will be required to attend a formal academic review meeting involving their supervisor(s) and Director of Graduate Studies (or at least one other member of academic staff who may or may not be a future assessor for confirmation of status). The purpose of this meeting will be to review progress to date, and to draw up a clear timetable to ensure that confirmation of status is successfully achieved within the proposed period of deferral.

To apply for a deferral of confirmation of status, a student will need to submit the GSO.14B form available from http://www.ox.ac.uk/students/academic/guidance/graduate/progression Students are required to complete the form, which should then be signed by the student’s supervisor and College. The Director of Graduate Studies/Graduate Studies Committee will then assess the application for deferral, taking into account any recommendations from the academic review meeting. For students admitted from 1 October 2010 onwards, if confirmation of status is not achieved within nine terms of admission as a graduate student, or approval given for a deferral of confirmation of status, his/her status will lapse.

In exceptional cases only, deferral may be granted beyond twelve terms. Applications for such deferral require approval of the University’s Education Committee for formal dispensation from the Examination Regulations. Student should contact the Graduate Studies Administrator for details of the application process.

**How to Apply for Confirmation of Status**

Applications for confirmation of status should be made using the forms GSO.14 and Law.5 both available from http://www.ox.ac.uk/students/academic/guidance/graduate/progression The GSO14 form should be completed by the student and then signed by the student’s supervisor and college and should include details of any research specific and/or personal and professional skills acquired, or further training needed in, and also information on any other related activities undertaken, e.g. presentation of posters, attendance at conferences etc. Students are also required to state whether their work required research ethics approval (and if appropriate, was granted)

Students in the Law Faculty will also be required to complete the supplementary LAW 5 form. Supervisors are asked [in consultation with their student] to suggest names of appropriate assessors and their willingness to act, neither of whom will normally be the student’s supervisor. The prospective assessors they will normally be academic members of staff working in the University of Oxford; only in exceptional circumstances will an external assessor be appointed. The assessors will read the confirmation materials and interview the candidate. It is permissible for the same assessor to be used for both transfer and confirmation of status, and this person may also act as the internal examiner for the D.Phil. viva voce examination.

In addition you will also be required to submit/complete two copies these must be securely and firmly bound in either hard or soft covers. Loose-leaf binding is not acceptable. Copies which are not securely bound will not be accepted

1. Thesis Abstract
2. Thesis Outline comprising the title of the thesis and a summary of each component chapter in approximately 100 words per chapter
3. Research Proposal, comprising an overview of the intended thesis, of approximately 1,000 words, stating how much of the thesis is complete and how much remains to be done (with an estimate of the probable date of completion)
4. Written Work 20,000 – 30,000 word in length and intended to form part of the thesis
6. Timetable for Completion (to be completed on Part 2 (ii) of the GSO.14 form)
7. Bibliography

The complete application for confirmation of status should be submitted to
Geraldine Malloy at the Law Faculty.

The Confirmation Assessment

The Director of Graduate Studies will appoint two assessors (normally those proposed by
student and supervisor on the Law 5 Form)—neither of whom will normally be the student’s
supervisor to read the confirmation assessment and interview the candidate The assessors
will normally be academic members of staff working in the University of Oxford; only in
exceptional circumstances will an external assessor be appointed. <It is permissible for the
same assessor to be used for both transfer and confirmation of status, and this person may
also act as the internal examiner for the Students should normally expect to be interviewed
within six weeks of submitting their application, though this may be longer during the vacation
periods due to availability of the assessors. The interview is not an official examination or
viva, and sub fusc is not worn. The assessors will interview then write a jointed report and
submit recommendations to the Graduate Studies Committee. Following their interview,
students should normally expect to hear the outcome of their assessment with six weeks,
though this may be longer during the vacation periods.

Instructions to Assessors

The assessors are asked to contact students as soon as reasonably possible to arrange a
time for the interview, or to explain problems in doing so. Students find it an anxious wait, and
may have good reasons for wanting the assessment completed as soon as possible (please
let Geraldine Malloy the Graduate Studies Administrator know if there is a problem in this
respect at the time of application).

An applicant for confirmation of status should be close to having a complete thesis plan, and
the work submitted should be close to reading as a complete thesis chapter. In contrast to the
transfer assessment, omissions and missing perspectives are much more serious at this
stage, but if the student can satisfy the assessors at interview that matters will improve, this
should not be a reason to decline recommending confirmation of status. The work should be
presented in a scholarly fashion and should be essentially of the standard expected of a
D.Phil. thesis in the final examination, though it is not expected that every footnote should be
in place yet etc. The assessors should judge the application against the criteria for success
defined below. As with the transfer assessment, the assessors should aim to provide
constructive criticism and advice to the student to identify and address deficiencies and
thereby strengthen their thesis, rather than presenting a judgmental verdict. Dismissive or
aggressive remarks are not appropriate. If it is unclear during the assessment how the
research will be completed, or the proposal is over-large, the assessors may request a revised
thesis outline or further written work before submitting the initial report.

The joint assessors’ report should be 1-2 pages in length, providing a permanent record of
advice given to the student at this stage and indication of the student’s progress. It should
normally include a summary of the points raised in the interview, feedback on the written
work submitted prior to the interview, comments on the positive aspects of the student’s work, as well as any concerns about the student’s progress and suggestions for the research going forward.

In particular, the assessors are asked to consider the clarity of the goals, the chapter structure, the timetable for completion and progress to date, and the significance to the existing literature and field. They should also provide an evaluation of the written work submitted by testing whether the work is presented in a scholarly and lucid manner. More specifically, the assessors should consider commenting on whether the student has presented evidence of being able to undertake research that provides new knowledge/understanding, which is capable of advancing their field, withstand peer review, and may be suitable for publication. Also, they should consider whether the student has developed a systematic acquisition and understanding of the substantial body of knowledge at the forefront of their field and a thorough understanding of the techniques for research needed for advanced academic enquiry. Furthermore, the student should show the capacity to design carry through and defend the thesis within three or at most four years. Finally, for non-native English speakers, the report should indicate the assessors’ view of the student’s ability to present and defend the work in English.

Significant differences of opinion between the assessors will be adjudicated by the DGS and/or Graduate Studies Committee, in consultation with the assessors and supervisors.

**Criteria for Success**

For confirmation of status to be approved, the student will need to be able to show that the research already accomplished shows promise of the ability to produce a satisfactory thesis on the intended topic, the work submitted for assessment is of the standard expected of a D.Phil. thesis in the final exam, *the bulk of any fieldwork has been completed and the analysis is well developed* and the research schedule is viable so that the thesis can be completed within three or at most four years from admission.

Students must also show that they are able to present and defend their work in English. In addition, the assessors will judge the application against the following criteria:

Below are examples of possible success criteria:

1. Evidence of wide reading and critical review of the literature
2. A clear indication of how the research is being developed into a thesis
3. Potential make a significant and substantial contribution to its field of study
4. Evidence of a progression of argument and logic throughout the thesis
5. Evidence of a scholarly and lucid approach to the research issues
6. The ability to write in clear and coherent manner, with due attention to presentation
7. Competence in both written and spoken English
8. The ability to articulate and defend the argument in the interview
9. The draft chapters are of the quality expected for a final D.Phil. thesis
10. A clear timetable for the completion of the research within three, or at most four, years from admission

**Outcomes of Confirmation of Status**

The assessors may recommend one of five outcomes, which must be considered and approved by the Graduate Studies Committee (excluding option (ii)).
(i) Successful confirmation – Accompanied by suggestions and advice for future progress.

(ii) Revision of application – The assessors may request further minor clarifications before making a first recommendation. In such cases it should be possible to complete the additional work within the term of assessment.

(iii) Referral for a second attempt at confirmation - This should normally involve the same assessors and take place within one term of the first attempt. If the first attempt is made in the final term permitted, a one-term extension is automatically granted to allow the second attempt. This extension does not affect the total amount of time permitted for registration on the D.Phil., however if the student has already been registered on the D.Phil. for twelve terms, the extension is counted as one of the potential six terms of extension of time permitted under the general regulations. The assessors should provide clear guidance on what needs to be done to improve the application prior to the second attempt at confirmation being submitted. This may require additional written work or other evidence, and possibly the appointment of an additional assessor.

Referral should not necessarily be seen as a failure, it may simply represent attempts to ensure that the student’s work is enhanced so that it is set on the best possible course. However, a referral will of course be very disappointing to a student and may take some time to get over, especially if the assessors comments are highly critical. Most students who do then go on to successfully complete the D.Phil. see the comments in retrospect as helpful, having given them the opportunity and incentive to make substantial improvements to the thesis and to avoid the risk of a far more costly and time-consuming referral of the final thesis.

(iv) Transfer to M.Litt. - Although the work presented was not suitable for confirmation of D.Phil. status, nonetheless, the assessor(s) felt it was still strong enough for the lower award which is a less demanding and shorter-timescale research degree. In cases where transfer to lower award is approved, if the student is already in their ninth term or beyond, a formal extension of time will also be needed to allow the student to stay on the graduate register for the lower degree, otherwise their status will lapse, and they will have to subsequently apply for reinstatement to the graduate register.

(v) Reject the application The assessors cannot recommend confirmation of status, or transfer to the lower award. This exceptional outcome should only be used if the quality of the student’s work has regressed to below the standard previously achieved for transfer of status.

At the first attempt at confirmation only options (i)-(iii) should normally be chosen. At the second attempt, options (i), (iv) or exceptionally (v) should be considered. The DGS/Graduate Studies Committee may also request additional work or other evidence, or appoint an additional assessor to help in making a final decision.

If a student fails to confirm D.Phil. status or to transfer to the status of the applicable lower degree after two attempts, then his/her student status will lapse and his/her name will be removed from the Register of Graduate Students. In such circumstances, informal counselling, often involving the student’s college, should be an integral part of the procedures.
Submission of the Thesis

Application for Appointment of Examiners

As you approach completion of your thesis you have to apply for the appointment of examiners. [http://www.ox.ac.uk/students/academic/guidance/graduate/progression](http://www.ox.ac.uk/students/academic/guidance/graduate/progression)

**GSO3 for DPhil and GSO 27 for MPhil and MSt.** The application requires signature by your supervisor, and another on behalf of your college.

You and your supervisor have a say in the choice of the examiners. In all cases (MSt, MPhil and DPhil), two examiners will be needed, one from Oxford and one external. The form asks for suggestions. It would be a rare case in which those suggestions were not accepted, and the Law Faculty Board would be unlikely to appoint others without first consulting with the supervisor, who in turn would be likely to consult you. It is not uncommon for the appointment of examiners to be a somewhat protracted process, especially where one suggested name turns out to be unable to act. It is therefore very important that you put in the relevant forms at the earliest opportunity to the Graduate Studies Administrator, at least three to four weeks before you submit your thesis. Your supervisor should contact proposed examiners *informally* to ascertain whether they are willing to act and available at the expected time. The withdrawal of one name sometimes creates problems of imbalance. It is very important indeed that you should be contactable during this phase at the place in which you have said that you will be, and you should independently make sure that your supervisor knows how to get in touch with you quickly. In case of difficulty, the Research Degree Office, at the Examination Schools will contact your supervisor, and the supervisor will want to talk to you.

Submission of the Thesis

The deadline for submitting your two bound copies (see Binding below) is the last day of the vacation which follows the term in which the thesis is due to be submitted. However you should aim to submit the forms to the Faculty at least 3-6 weeks before. The only proper recipient is the Research Degree Office, at the Examination Schools (*not the St. Cross Building*). The thesis must state the number of words to the nearest hundred, and the number so stated must be within the prescribed word limit. There must be an abstract of the thesis, of about 300 words. At the end of the process, successful DPhil theses must be submitted for the Bodleian Library and a digital copy should be deposited in the ORA at [http://ora.ox.ac.uk](http://ora.ox.ac.uk) (see pg. 45 below). Students for the MPhil and MSt are not required to submit Bodleian copies, but if they wish to do so, they should contact the Research Degree Office for further information about how to do so.

Be careful to comply with the Faculty’s Format for Theses which follows this section. If you think you have not understood any of the requirements, you must raise the matter as early as possible with the Graduate Studies Administrator.

Format for Theses in the Faculty of Law

1. ‘Thesis’ here includes not only the writing submitted for the DPhil, MLitt, MPhil, or MSt, but also the essay which is submitted by a Probationer Research Student for a Qualifying Test, Confirmation of Status and dissertations offered in the examination for the BCL or MJur. It does not include essays set by way of examination for the BCL or MJur.
2. Every thesis must include an abstract not exceeding 300 words. The abstract must contain no footnotes. The abstract must appear immediately after the title page. Its format is governed by regulations 7 to 10 below.

3. Every thesis must contain a table of contents. The table of contents must state the titles of the chapters and their principal sub-divisions. The table of contents must be indexed to the pages where the chapters and first-level sub-headings begin. If required, a table of abbreviations should follow the table of contents.

4. Every thesis which mentions cases and statutes must contain separate tables of cases and statutes. Unless there are very few cases and/or statutes, divide the tables into separate sections for separate jurisdictions. Arrange EC cases in chronological and numerical order. Any other tables should follow, e.g. tables of other primary legal sources (official papers, treaties, UN documents, etc.), and of tables and/or diagrams provided in the text. The tables must be indexed, so that each entry shows on what pages the case or statute in question is mentioned.

5. A bibliography listing secondary sources (articles, books, monographs etc.) in alphabetical order must appear at the end of the thesis. It should include all such sources cited in the thesis. It need not be indexed.

6. The order of the thesis should be: title page, abstract, table of contents, table of abbreviations, table of cases, table of statutes, tables of other primary legal sources, table of diagrams and tables, main body of thesis, any appendices, and bibliography. An index is not required. If there is one, it must come after the bibliography.

7. All footnotes and appendices are included in the word count. The abstract, the table of contents, the table of cases, the table of statutes, the bibliography, any headers or footers, and any index are not included in the word count.

8. The thesis must be written in English.

10. The thesis must be word-processed using size 12 font on one side of the paper only, with a margin of 32 to 38 mm on the left hand side. Variations of font size may be used for headings, sub-headings, and footnotes.

11. The lines in the main text must be double spaced (8mm).

12. The first line of every paragraph must be indented unless the paragraph immediately follows a heading or sub-heading, or an indented footnote.

13. Quotations must use single inverted commas, saving double inverted commas for use for quotes within quotes. Quotations longer than three lines must be presented as a double-indented, single-spaced paragraph with no further indentation of the first line. Such double-indented quotations must not use quotation marks.

14. Endnotes must not be used. Footnotes must be internally single spaced with double spacing between the notes.
15. The thesis must comply with OSCOLA (the Oxford Standard for Citation of Legal Authorities: http://denning.law.ox.ac.uk/published/oscola.shtml, or another useful standard for citation. You should consult your supervisor if you wish to depart from OSCOLA.

16. The thesis must be bound in a soft or hard cover. NB for BCL and MJur dissertations, any form of binding – e.g. spiral binding – is sufficient.

17. Where the thesis is offered as part of an examination which is assessed anonymously, it must not at any point divulge the identity of the candidate or the candidate’s college.

18. The word limits for theses:

<table>

</tbody>
</table>

**The Title of the Thesis**

The exact title has to be approved, and the thesis must be submitted under the approved title. However, it is relatively easy to obtain permission for a modification. There is a form for seeking this permission. It is available on http://www.ox.ac.uk/students/academic/graduates/forms/. Do not make the title too long. It is the business of your first few pages, not of the title, precisely to define your project and make clear what questions will and will not be addressed. Think of your title as the title of a book.

**Examination**

**Timing**

The internal examiner will contact you to arrange the date of the viva. In the normal course you might expect the examiners to have fixed the date for the viva within four-six weeks from submission. The viva usually takes place roughly eight weeks after submission. Do not hesitate to contact the Research Degree Office, (researchexams@admin.ox.ac.uk) if you think something has slipped up. It is extremely important that the examiners should be able to contact you in the period after submission. The forms oblige you to say where you will be, but even so some people turn out to be very elusive. In addition to the contact point given on the form, examiners will generally try your address. If they cannot contact you, very long delay can ensue.

Examining a thesis is hard work and requires the examiners to clear a substantial slice of time. You cannot reasonably expect to be viva’d within a month of the examiners receiving a thesis, without permission from the Proctors, but, if you have a good reason for needing a viva as early as possible, you can say so when you apply for examiners to be appointed. It is then sometimes possible to fix dates in advance. If you want to do this, apply for the appointment of examiners well ahead of the actual submission. Once again, be sure that all relevant people know where to contact you.
Binding
Copies for submission for the viva must be securely and firmly bound in either hard or soft covers. Loose-leaf binding is not acceptable. Copies which are not securely bound will not be accepted. Soft covers, which are less expensive, are probably more sensible at this stage.

You will need a third copy of the thesis, identical in pagination etc. to that submitted for the two examiners, for yourself to use at the viva.

The Viva: A Public and Inescapable Event
The viva is a public event. You have to wear sub fusc (see Academic Dress above), and so also do members of the University who come to spectate. Sometimes people do come. They are usually people who expect to go through the same ordeal themselves and want to see what it is like. The ordeal is also inescapable, in the sense that, however clear the examiners think they are as to their likely recommendation, they are obliged to conduct the oral examination. And you cannot get your degree unless you have been viva’d. Your supervisor can advise you on preparing for the viva. Its purpose is partly for the examiners to satisfy themselves that you have a sound grasp of the general area of your thesis, but the primary focus of the viva will to give you an opportunity to defend your own work. Take your own copy of your thesis with you to your viva. The viva will normally be held in Oxford, but in exceptional circumstances, normally affecting the ability of the external examiner to take part in an Oxford-based oral examination, application may be made to the relevant board for special permission to hold the examination using audio-visual communication with the external examiner concerned. Full details of the regulations relating to this process can be found in the Examination Regulations at http://www.admin.ox.ac.uk/examregs/25-54_1_Regulations_governing_the_content_and_length_of_theses.shtml#subtitle_2

The Recommendation of the Examiners
The final decision lies with the Director of Graduate Studies (Research). The examiners do not decide. They recommend. It goes without saying that departures from the examiners’ recommendation are rare. Nevertheless, the fact that the examiners cannot make the decision is a serious reason inhibiting their communicating to you the nature of their judgment. Some examiners feel more inhibited than others in this respect. Every effort will be taken to minimize the time within which you are kept in suspense, and the DGS(R) will take a final decision as soon as possible following the receipt of the report. But there may well be some delays. Sometimes the examiners are not able instantly to complete and submit their report after the oral examination. There may be grounds to refer the report to the Faculty Board. Hence you may have to wait for the final result.

Outcomes of the examination
Having completed the examination of a candidate for the first time, the examiners may make any one of recommendations (i), (ii) or (iv) below only. Having completed the examination of a candidate who has revised and re-submitted his or her thesis, the examiners may make any one of recommendations (i)-(vi). The recommendations, in summarized form, are3:

3 A detailed account of the recommendations and of related regulations can be found in the DPhil Examination Regulations at http://www.admin.ox.ac.uk/examregs/24-53_General_Regulations.shtml#subtitle_6
(i) Leave to supplicate
That the board should grant the candidate leave to supplicate for the Degree applied for: Doctor of Philosophy; Master of Philosophy in Law; Master of Studies in Legal Research

(i) (a) Minor corrections
If the examiners are satisfied that the candidate's thesis is of sufficient merit to qualify for the degree but consider, nevertheless, that before the thesis is deposited the candidate should make minor corrections (which are not sufficiently substantial to justify reference back for re-examination and which should be capable of completion within one month), they must require the candidate to correct the thesis to their satisfaction before they submit their report.

(i) (b) Major corrections (for DPhil only)
If the examiners are satisfied that the candidate's thesis is of sufficient potential merit to qualify for the degree but consider, nevertheless, that before the thesis is deposited the candidate should make major corrections (which are not sufficiently substantial to justify reference back for re-examination and which should be capable of completion within six months), they should report this preliminary recommendation to the board with a description of the major corrections which they require the candidate to make before they confirm their recommendation. Where the examiners make this recommendation, and the board, considering the extent and nature of the major corrections, takes the view that the recommendation ought to be reference of the thesis back to the candidate in order that he or she may revise it for re-examination, the board may, exceptionally, ask the examiners to review their recommendation. If the candidate has not completed these corrections within six calendar months of the date of receipt of the list of major corrections from the examiners, his or her name shall be removed by the Registrar from the Register of Students for the Degree of Doctor of Philosophy. No extension shall be granted, but it shall be open to a candidate who has failed to fulfil this requirement within those six months, to apply to the board for reinstatement as a Student for the Degree of Doctor of Philosophy, with the support of his or her society and supervisor, upon submission to the Registrar of a copy of his or her thesis incorporating the required corrections, and upon payment of such reinstatement fee as may from time to time be prescribed by Council by decree. Permission to supplicate shall not be granted until this fee has been paid.

(ii) Referral for DPhil/award of MLitt
That the board should offer the candidate a choice between (a) reference of the thesis back to him or her in order that he or she may revise it for re-examination for the Degree of Doctor of Philosophy, and (b) leave to supplicate for the Degree of Master of Letters or of Master of Science, as appropriate, on the basis that the thesis has not reached the standard required for the Degree of Doctor of Philosophy but has nevertheless reached that required for the Degree of Master of Letters or Master of Science.

(iii) Referral for MLitt only
That the board should refer the student's thesis back in order that he or she may present it for re-examination for the Degree of Master of Letters or of Master of Science only. If the board adopts the recommendation the student shall be transferred forthwith to the status of Student for the Degree of Master of Letters or Student for the Degree of Master of Science as the case may be, and shall be permitted to apply for permission to supplicate for the Degree of Master of Letters or Master of Science in accordance with the provisions of the appropriate regulation.
(iv) Referral for DPhil or MLitt
That the board should refer the student's thesis back in order that he or she may present it for re-examination either under (iii) above for the Degree of Doctor of Philosophy or, if the student chooses, under (iii) above for the Degree of Master of Letters only. The board shall adopt such a recommendation only if it is fully satisfied that the thesis as it stands is not of the standard required for the Degree of Doctor of Philosophy, nor for the Degree of Master of Letters or of Master of Science as the case may be, but that the candidate could reach the standard required for the Degree of Doctor of Philosophy. If such permission shall have been given by a board during a vacation, it shall be deemed to have been given in the term preceding that vacation.

(v) Award if MLitt only
That the thesis has not reached the standard required for the Degree of Doctor of Philosophy but has nevertheless reached that required of the Degree of Master of Letters and that the candidate may be granted leave to supplicate for the MLitt on the basis of the thesis as it stands.

(vi) Leave to supplicate refused
That the student's application for leave to supplicate should be refused outright.

Being referred
You should remember that many candidates, even those who have written really excellent theses, are referred back for resubmission. There is often some aspect of the thesis which strikes the examiners as incomplete or unfocused. It is of course a blow to have to do more work on something, which you had hoped, was finished, but the result can be a substantial improvement in the work. To satisfy the examiners on resubmission it is vital that you read their report carefully and follow their recommendations as closely as possible. If they refer you, the examiners will tell you, in writing, exactly what parts of the thesis require to be rewritten and why. After you resubmit, there may or may not be a second viva, depending on whether the examiners need to meet you in order to decide whether you have done what they required.

Oxford Research Archive (ORA) and Digital Publication of Theses
The University of Oxford is committed to the widest dissemination of research theses produced by its graduate students. The Oxford University Research Archive (ORA) is an online archive of research materials including theses created in fulfilment of Oxford awards, produced by graduate students at the University of Oxford.

All students following the DPhil, MLitt who registered for the DPhil from 1 October 2007 onwards, are required to deposit a hardbound and a digital copy of their thesis with the Bodleian Libraries. The digital copy should be deposited in the ORA at http://ora.ox.ac.uk. Students commencing these degrees before October 2007 must deposit a hardbound copy but may also optionally submit a digital copy.

ORA provides maximum visibility and digital preservation for Oxford digital theses. Students should read the important information about the deposit of, and access to, digital theses which is available at www.bodleian.ox.ac.uk/ora/oxford_etheses and includes:

- Legal requirements and author responsibilities
- When to deposit the digital copy of your thesis
- How to deposit the digital copy of your thesis
• Open and embargoed access (for reasons such as sensitive content, material that would affect commercial interests, pre-publication or legal reasons) to all of part(s) of your thesis
• Information about file formats, fonts and file sizes

Copyright of the thesis usually rests with the author: this does not change when depositing your thesis in ORA. The author does not give away any rights to the Oxford University Research Archive or the Bodleian Libraries. However, students should read the information on third party copyright at: http://www.bodleian.ox.ac.uk/ora/oxford_etheses/copyright_and_other_legal_issues/copyright_held_by_third_parties_and_other_rights

Student are strongly encouraged to ascertain and arrange permissions for inclusion and distribution of material via the Internet where copyright is held by a third party at the point that the items are gathered. This is similar to the process when writing a journal article or monograph. A ‘Record of permissions’ template has been created to assist with this process. http://www.bodleian.ox.ac.uk/ora/oxford_etheses/copyright_and_other_legal_issues/copyright_held_by_third_parties_and_other_rights

Further information or queries about depositing digital theses should be addressed to ORA@bodleian.ox.ac.uk.

Students following MPhil in Law or the MSt in Legal Research Master of programmes, are invited to deposit a digital copy of their thesis voluntarily with the Oxford University Libraries in addition to the deposit of a hardbound copy. The digital copy should be deposited in the Oxford University Research Archive (ORA) at http://ora.ox.ac.uk

The Social Sciences Division – Restricted access arrangements

Whilst the Social Sciences Division strongly supports open access to, and wide dissemination of, theses produced by its students, the Division has agreed that during the initial period (whilst both authors and publishers adapt to open access), access by others to the full text of digital theses will be restricted for three years by default. When completing the ORA online deposit form authors should therefore enter an embargo end date of three years from the date of deposit. There is no need to complete a separate GSO3.C Dispensation from Consultation form at the time of deposit.

During the period of the embargo, only the following information from your thesis will be available in ORA:
(i) Item record (details including your name, thesis title, subject area) and
(ii) Abstract and
(iii) Full text search for single words or short passages of text.

At the time of deposit an author may request permanent closure in ORA under the following circumstances:

(a) For digital material where copyright is held by a third party and permission to disseminate it via the Internet in ORA has not been granted by the copyright holder, the Law Faculty will grant permission for the copyright material to be deposited as a separate file from the thesis, on the understanding that the thesis will be available for consultation or reproduction but access to the copyright material will be restricted.
(b) Where confidential material forms only a small part of a thesis and the force of the thesis will not be seriously impaired by the removal of such material, the Law Faculty may grant
permission for the access to the confidential material to be closed on the understanding that the thesis will be available for consultation or reproduction but access to the confidential material will be restricted. Authors can also choose to override the default embargo and make their thesis open access, either at the time of deposit or at any time during the three year embargo. Authors who wish to make their thesis freely available on deposit should indicate this on the Deposit and Consultation of Thesis form (GSO3A) and on the online ORA deposit form. Once the embargo is in place, students wishing to end it early should e-mail ORA@bodleian.ox.ac.uk with instructions. Those planning to publish their research as a book or article are not recommended to place their thesis on open access in ORA without first discussing this matter with their supervisor and consulting potential publishers to ascertain their policy. The embargo will be automatically lifted after the three year period, and it is the responsibility of the author to apply for an extension if required. No reminder will be sent and it will be assumed that the full text can be released if a Dispensation from Consultation form (GSO.3C) is not submitted (see below).

**Dispensation from consultation of your thesis – library and ORA**

(i) Authors may apply for dispensation from consultation beyond the end of the default 3 year embargo period of the copy of the thesis deposited in the Bodleian or other University Library and of the electronic copy of the thesis deposited in ORA if there is good reason for such a request. Reasons for requesting dispensation might include that consultation or reproduction would put at risk confidential material or invalidate an application for a patent on a product or process described in a thesis. Students are advised to be particularly mindful of the terms of any agreements with an outside body or sponsor governing supply of confidential material or the disclosure of research results described in the thesis.

(ii) Dispensation will always be granted (a) in cases where confidentiality has been made a condition of access to materials that are subsequently incorporated in a thesis and (b) for material where copyright is held by a third party and permission to disseminate it via the Internet has not been granted by the copyright holder. Students should apply for dispensation by completing form GSO.3C, available at:

[http://www.ox.ac.uk/students/course_guidance_supervision/graduates/forms/](http://www.ox.ac.uk/students/course_guidance_supervision/graduates/forms/)

**Journal articles included within the thesis:** Authors sometimes include published journal articles within their theses. Authors needing to include such articles as part of the e-thesis can make the article freely available only in compliance with copyright and any sponsor permissions. See [www.sherpa.ac.uk/romeo.php](http://www.sherpa.ac.uk/romeo.php) for guidance or ask ORA staff (ORA@bodleian.ox.ac.uk).

**The copyright in the thesis:** usually remains with the author. In a tiny minority of cases, copyright might rest with a sponsor or other body. Students should speak to their supervisor or Research Services if they are unsure.

**Third party copyright**

If material has been incorporated within the thesis where copyright is held by an individual or group that is not the author (third party copyright) permission will be needed to make such material freely available on the Internet. It is best to obtain such permission when sourcing the material. Proof of permission will need to be provided when depositing the thesis in ORA (e.g. e-mail or letter). Authors should contact ORA staff (ORA@bodleian.ox.ac.uk) if they are unsure. A useful template to keep track of permissions for use of third party copyright materials is available for download at:
Intellectual property rights
Authors should apply for dispensation from consultation if consultation or reproduction of all or part of the thesis would put at risk confidential material or invalidate an application for a patent on a product or process described in the thesis, or restricting access to the thesis is a requirement of any agreements with an outside body or sponsor governing supply of confidential material or the disclosure of research results described in the thesis. Authors should speak to their supervisor or Research Services if they are unsure.

Plagiarism
Making the thesis open access increases its visibility, gains recognition for the author and certifies them as author of the work. It can also give rise to concerns about increased risk of plagiarism. However, when work is available open access, plagiarism is easier to detect (by using a web search engine)

General Queries
Any further information or queries regarding the deposit of your digital thesis, should be referred to ORA@bodleian.ox.ac.uk.

Publication
In the immediate aftermath of your examination, you may find it difficult immediately to turn back to your thesis. The sense of exhaustion will quickly wear off. And when it does you should do your best to bring it out either as a series of articles or as a book. Your supervisor and the tutors in your college will be happy to advise how to go about it and in particular how to get in contact with a publisher. Read the report of the examiners carefully and follow any advice given there on how to improve your work with a view to publication. It is important that the research which you have done should make its contribution in the most effective way. Often that means writing a chapter or two more, and perhaps making some quite radical changes to others. It will be worth the effort. When you publish work arising from your research, we hope very much that you will remember, in advance, to draw the publication to the attention of the Faculty through the DGS(R). We do not lose interest in you or in your work when you leave.

MPhil/DPhil status after the BCL or MJur or MLF
Students who complete the BCL or MJur or MLF may then continue either to the MPhil or to DPhil/Probationer Research Status. Admission to the MPhil is available only to those who have completed the BCL and MJur or MLF and proceed directly to the MPhil in the next academic year (for the purposes of the regulations, the MPhil is viewed as being the second year of a two-year course and the BCL or MJur as the first year). Occasionally, students may be allowed to defer admission to the MPhil, but only in exceptional circumstances. If you complete the MPhil you may then continue to the DPhil (see section B 2.9 above). Alternatively, you may choose to seek admission to the doctoral programme immediately after the BCL or MJur or MLF in which case, rather than apply for the MPhil, you would apply for DPhil/Probationer Research Student status (this would involve your being admitted as a Probationer Research Student in the first instance before transferring to DPhil status as...
described in Section B 2.8 above). In both cases, admission will be conditional on the quality of your research proposal, availability of supervision, and any other academic conditions imposed by the relevant subject group – this will normally mean attaining a particular average in the BCL/MJur/MLF examinations (the figure in question will vary between subject groups and candidates). There are various considerations that may lead you to choose to one of these two routes rather than the other: you may only want to do a one-year masters research degree rather than proceeding to the doctorate, or you may want to attain the additional qualification of the MPhil before proceeding to the DPhil. Conversely, there may be considerations such as funding that would lead you to choose the DPhil/PRS route. Home/EU students should note that the AHRC do not provide grants for those taking the MPhil.

**How to apply for admission to the MPhil or to DPhil/PRS status**

Providing there is no break in your study and you apply to be admitted the academic year directly following that in which you took the BCL/MJur/MLF, you may apply using the readmissions forms available from the Student Self Service system (https://www.studentsystem.ox.ac.uk). These will be pre-populated with details that the University currently has on record for you, such as your personal details and your previous qualifications, but you will need to enter details of the programme you intend to study and any changes to the data we hold in your record. You will need to submit a research proposal which should be approximately two pages in length and should have a working title and a short synopsis and, unless it is self-evident, should indicate the areas or subject matter the proposed dissertation will cover. In both cases, applications should be submitted by 23 January 2015.
University Policy Statements and Codes of Practice

Equality and Diversity unit and related resources

Equality and Diversity Unit
The Equality and Diversity Unit promotes equality, values diversity and supports departments/faculties and colleges in maintaining a working, learning and social environment in which the rights and dignity of all members of the university community are respected. It aims to ensure that no student will be treated less favourably on the grounds of age, disability, gender, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion and/or belief, and sexual orientation. For more information on the networks and activities the Unit supports, visit: www.admin.ox.ac.uk/eop/. These include:

- LGBT Staff Network (staff and graduate students)
- Race Equality Network (staff and students)
- Oxford Women’s Network (staff and students)
- LGBT History Month
- Black History Month

The Equality and Diversity Unit supports a network of over 300 harassment advisors in departments/faculties and colleges and a central Harassment Advisory Service. For more information on the University’s Harassment and Bullying policy and the support available for students visit: www.admin.ox.ac.uk/eop/harassmentadvice/
The Disability Advisory Service (DAS) can provide information, advice and guidance on the way in which a particular disability may impact on your student experience at the University and assist with organising disability-related study support. For more information visit: www.ox.ac.uk/students/shw/das/
The Counselling Service is here to help you address personal or emotional problems that get in the way of having a good experience at Oxford and realising your full academic and personal potential. They offer a free and confidential service. For more information visit: www.ox.ac.uk/students/shw/counselling/

A range of services led by students are available to help provide support to other students, peer support, OUSU Student Advice Service and Nightline. For more information visit: www.ox.ac.uk/students/shw/peer/
Research Development

Your Development as a Researcher

As a doctoral student at Oxford you will need to combine detailed subject knowledge with thorough training in relevant research methods and techniques, as well as general research management skills, professional knowledge and career development. This combination of skills, knowledge and training is intended to help your research and also to enhance your personal and professional development and employability. You will have access to a wide range of training whilst undertaking your research, including:

1. Research methods training within the Faculty (the Course in Legal Research Methods)
2. Training open to doctoral students across the social sciences via the Research Methods Hub
3. An Academic and Professional Development Programme (APDP) organised by the Social Sciences Division and aimed at doctoral students and early career researchers
4. Training offered by University providers such as the Careers Service, IT Services and Bodleian Library

The Course in Legal Research Methods (CLRM)

The CLRM serves three functions. First, it is an important aid to help students develop skills in legal research and methodology. Second, the course exposes students to the diversity of, and intellectual challenges involved in great legal scholarship. Third, and most importantly, the course is a forum of peers in which research students can discuss the methodological challenges involved in their own research. As such, the course requires students to think critically and to work together as part of a community committed to producing legal scholarship of the highest quality. Satisfactory completion of the CLRM course requires you to do three things: i) attend 32 hours of seminars; ii) present a 10 minute oral presentation at the Oxford Graduate Legal Research Conference and engage in a feedback session on that presentation; iii) submit a 2000 word written presentation based on your oral presentation. Further information about the CLRM, including a handbook and programme for 2014-15, can be found on Weblearn at https://weblearn.ox.ac.uk/portal/hierarchy/socsci/law/clrm/page/reading_lists%2C

Training open to doctoral students within the Social Sciences Division

For research students in law, the CLRM is very much the primary source of research training. However, as members of the Social Sciences Division, you also have access to the Social Sciences Doctoral Training Centre. The Centre is part of a UK-wide network of 21 Doctoral Training Centres funded by the Economic and Social Research Council (ESRC). It is not a single physical place, but rather a coordinating hub for training in research methods and academic and professional development. All social sciences doctoral students have access to the training on offer. Through Doctoral Training in the Social Sciences, you can access research methods training and other researcher development opportunities.
including specialist and advanced research methods training in other Departments, through the Social Sciences Division’s Research Methods Hub, and across the University page of the http://dtc.socsci.ox.ac.uk website. We would strongly advise that you have discussions with your supervisor before undertaking training from any of these sources, to ensure that it is appropriate to your needs.

**Academic and Professional Development**

To support your broader development as a researcher and enhance your professional development and employability, the Social Sciences Division organises an Academic and Professional Development Programme (APDP) covering a range of generic and transferable skills. For more information, see the APDP page of the Doctoral Training in the Social Sciences website.

**Other University Services**

Oxford offers a wide range of researcher development opportunities and resources for social science doctoral students. In addition to research methods training and the Academic and Professional Development Programme (APDP), there are also University-wide resources and career development opportunities.

**Bodleian Library**

The Bodleian Library provides training in information skills and information literacy. Some workshops are offered under the auspices of the APDP; others are offered directly by the Library.

**Careers Service**

The Careers Service, has a range of events and resources for doctoral students.

**IT Services**

Through its IT Learning Programme, IT Services offers a range of computing courses.

**Online Courses**

Several online courses are available, including the Research Skills Toolkit and a Research Integrity course for social science researchers.

**Oxford Learning Institute**

The Oxford Learning Institute (OLI) has a useful set of resources on research supervision and its Apprise website is aimed at doctoral students. The Research Supervision website provides information for both DPhil students and their supervisors on the following key topics:

- DPhil students
- Being a supervisor
- Stages of the doctorate
- Examination
- Research environment
• National and international context

Under these broad headings, the website includes explanations of Oxford’s policies and practice with links to University policy documents, downloadable tools and ideas for both students and supervisors, links to further national and international websites, examples of good practice, and listings and links to some of the research literature on doctoral study, including articles in journals which the University has on subscription.

Language Centre

The Language centre offers specialist and difficult languages training. Please note that you should discuss attending courses run by the Language Centre with your supervisor and departmental graduate administrator BEFORE signing up for or attending any course.

Developing Teaching and Learning

As a second or third year doctoral student, you may wish to undertake a Preparation for Teaching and Learning at Oxford (PLTO) seminar, which provides an introduction to teaching in higher education. The Faculty’s own PLTO course runs over two half-days in late September, and is a requirement for anyone who wants to be a Graduate Teaching Assistant, and open to new College Lecturers and Tutors. Students who complete the PLTO are entitled to go on the Faculty’s Teaching Register. Further information is available in Weblearn: https://weblearn.ox.ac.uk/portal/hierarchy/socsci/law/work/tl

If you have completed a PLTO seminar and are undertaking some teaching, then you may register for the Oxford Developing Learning and Teaching (DLT) programme. This one-term seminar series, available under the auspices of the Social Sciences Doctoral Training Centre’s Academic and Professional Development Programme (APDP), encourages you to reflect upon and make the most of your first teaching experiences in higher education. If completed in full, it leads to an award that is recognised at universities across the UK: Associate Fellowship of the Higher Education Academy (HEA). The Teaching Development website provides further information on teaching and teaching development within the Social Sciences Division.

Finding and Signing-up for Graduate Training

During your time as a doctoral student, you are encouraged to draw on the process of Training Needs Analysis to think strategically about your ongoing development as a researcher and professional and to take advantage of the variety of training on offer. For details of current training opportunities and to sign-up for courses and workshops, you will need to visit the Graduate Training site in WebLearn, the University of Oxford’s virtual learning environment (VLE).

On the Weblearn Graduate Training site, you can search, browse and sign-up for courses on offer within Departments, at the Divisional level, and through other Services across the University. The Graduate Training site was previously known as the Student Enrolment System (SES). An Oxford Single Sign-On is required to access full information about courses, and all sign-ups must be made using an Oxford email address.

There are three ways to find courses in the Graduate Training site:

1. Search
2. Browse
3. By date
Use the **Search Modules** option if you know the training topic that interests you; for example, you might wish to search for *statistics* or *time management*. You can filter the results of a search in a variety of ways, including by department, skills category or timeframe.

Use the **Browse by Department** option to determine what courses are currently offered by Departments, the Social Sciences Division and other University Services. Clicking on any option will expand the list of choices, increasing the options available for you to browse. At times, the list of options can get quite long, so don’t forget to scroll down!

The **Browse by Calendar** option lists all available training by date. This option is especially useful if you are looking for upcoming courses.

Law Faculty Statement of Provision for Graduate Research Students

1. What arrangements will be put in place for supervising the graduate’s work?

You will have a named supervisor or supervisors, normally as indicated in your offer letter, who will have overall responsibility for the direction of your work on behalf of the Faculty. In your first term you should meet with your supervisor(s) not later than the second week of full Term; typically, you should then expect to have individual meetings with your supervisor for one hour not less than two to three times each term, but the frequency may vary according to the time of year and according to the stage you are at in your research programme. Further information about the role of the supervisor is provided in Appendix a Research Supervision: a brief guide.

2. What induction arrangements will be made?

You will have Faculty induction before the beginning of your first term, when you will receive an induction pack of essential information and guidance. The main induction to the Faculty is provided in the two weeks preceding the start of Michaelmas Term. Other arrangements will be made for students starting at other times of the year. Your supervisor(s) will arrange more specialised induction subsequently, and you should make a particular effort to meet with your supervisor during your first weeks here to discuss your studies.

In addition, all students are invited to attend a Social Sciences Division induction event through the Social Sciences Doctoral Training Centre, which they are strongly encouraged to attend.

3. What workspace will be provided?

Workspace will be related to individual circumstances and the facilities available within the Faculty. There is a dedicated graduate reading room available in the Bodleian Law Library. This includes 50 study spaces, many of which are equipped with an Ethernet socket. Wireless access is also available. Graduates are able to store their personal effects in lockers at the St Cross Building. Students in Socio-Legal Studies and Criminology will have access to workspace at the affiliated centres.

4. What IT support/ library facilities/ experimental facilities will be available?

The Faculty has its own IT provision and specialist IT support staff including an IT Support and Database Officer, and a Web Development and Support Officer. The Faculty’s Departmental Lecturer in Legal Research Skills also provides support in respect of IT-related research skills. You will have access to the Bodleian Law Library and the Social Sciences Library (in addition to other university libraries, and the centrally provided electronic resources) and experimental facilities are available where relevant. Training on how to use the Library’s legal and journal database is jointly provided by the Law Faculty and the Bodleian Law Library. Training begins at induction and continues in special sessions through term. These are advertised at www.ouls.ox.ac.uk/law

5. Which research seminars will be available?

You will have access to the seminars that the Faculty organises, and those which individual research groups or groups with common areas of interest organise for their own members and others within the Faculty. You will also have the opportunity to access seminars organised by other departments in areas relevant to your research area. Research students in law are allowed to attend BCL/MJur seminars as they wish. Students may also attend MSc in Criminology and Criminal Justice seminars. Seminars are listed at
6. What access to research funds will be available?

The Faculty has a number of studentships and other small grants for research students (for example, to assist with conference attendance or fieldwork expenses). A list of studentships in law is available at http://www.law.ox.ac.uk/postgraduate/scholarships.php

The Law Faculty also runs a Graduate Travel Grant scheme, which is open only to research students who are either conducting empirical or archival research elsewhere in order to complete their degree, or who are presenting a chapter of their thesis at an academic conference. A small grant is typically available during the course of the academic year.

7. Will there be any additional costs associated with the programme?

There are no additional costs that are generally applicable. In some instances, a student’s chosen research topic will mean that fieldwork or a research trip or trips are necessary/desirable, in which case there are likely to be additional travel and maintenance costs. In such circumstances, students can apply to the Graduate Travel Grant scheme referred to under 6 above.

8. What formal graduate skills training will be provided?

You will have the opportunity to attend a variety of skills training sessions offered by the Faculty, as appropriate to different stages of your graduate career, as well as training geared to your specific research needs, which will be agreed in consultation with your supervisor. The Law Faculty requires every research student to complete the Course in Legal Research Method (though see below provisions for students in Criminology and Socio-Legal Studies). The course aims to assist research students in establishing a sound methodological base for their legal research and writing in its early stages. It is structured around discussions between graduate students and members of the Faculty. Further information about the course can be found at http://denning.law.ox.ac.uk/oxfordonly/students.clrm.shtml.

Students working in Criminology may, with the permission of the of Graduate Studies (Research), take two out of three courses in empirical research methods (‘Research Design and Data Collection’, ‘Social Explanation and Data Analysis’ and ‘Qualitative Methods’) in place of the Course in Legal Research Method; students working in Socio-Legal Studies will take the course in Theory and Method in Socio-Legal Research, which covers theoretical approaches as well as practical research skills such as use of databases and library resources.

Under the auspices of the Social Sciences Doctoral Training Centre, there are also opportunities to access advanced and specialist research training provided elsewhere in the division and University. Further information on these opportunities is available on the Research Methods hub page of the DTC Website, and you can enroll via the Student Enrolment System.

The Social Sciences Division organises an Academic and Professional Development Programme covering a range of relevant generic transferable skills and which research students are encouraged to attend. Details of the programme are available via the Student Enrolment System (SES) in WebLearn.

Information about training and other courses offered across the University is available through the University’s Graduate Training WebLearn site. This site provides information.
about transferable skills development for research students and research staff at Oxford University.

9. **What opportunities will be available for developing and practising teaching skills (for second and third year graduates)?**

For advanced research students who are interested in teaching, the Faculty runs an annual teacher training seminar. This seminar is mandatory for the faculty’s Graduate Teaching Assistants (GTAs). Law Faculty Graduate Teaching Assistantships are created in areas of Faculty need and GTAS are awarded £1,000. They are expected to provide up to 48 hours of tutorial teaching for colleges in an academic year. Additional opportunities to undertake tutorial teaching in colleges are available outside the GTA scheme. All students proposing to teach are strongly encouraged to take the Faculty annual teacher training seminar.

10. **What opportunities exist for undertaking work experience or internships**

There are no formal arrangements for work experience or internships though, depending on their research topics, students are often able to organise internships of one sort or another themselves.

11. **What arrangements for accommodation, meals and social facilities, will be made, on a year round basis?**

Law Faculty seminars bring research students together with academic and other research staff to hear about and debate on-going research, and to provide an opportunity for networking and socialising. Postgraduate research students in law participate in subject specific discussion groups that are organized by graduate students and Faculty members and meet regularly each term. A member of the group presents work in progress or an outside speaker is invited to discuss a current project. Students can also attend general weekly research student lunches during term. These lunches, sponsored by the Faculty, provide research students another opportunity to present their work and also allow a forum for discussion of areas of common interest.

**College:**

Many colleges will be able to provide you with at least one year’s accommodation. Generally speaking your college will provide meals throughout the year, but provision will vary from college to college, especially during vacations, and you will need to familiarise yourself with your college’s detailed arrangements. In addition there are usually self-catering facilities available in graduate accommodation. You will be a member of the Middle Common Room, or equivalent, of your college, which is the main social centre for graduates. The MCR provides a common room and usually organises a programme of social events throughout the year. The college will also provide a bar, some computing facilities and a library, and may often have dedicated funds for research (conference and field grants). It also represents the interests of its members to the college through an elected Committee or through elected representatives to College Committees. Again, details will vary from college to college. Graduates are also welcome to participate in all other social and sporting activities of the college. Please see individual college websites for further details about all aspects of college provision.

**Central:**

Graduate Research Students may become members of the University Club in Mansfield Road, and participate in the range of sporting and cultural activities provided by the University.
12. What arrangements are in place for pastoral and welfare support?

**Department:**
Within the Faculty, your supervisor, Director of Graduate Studies (Research) and Academic Administrator are all available to offer support or advise you on where to get appropriate support. The Faculty also has its own Graduate Studies Administrator, who answers questions and advises on students’ progress.

**College:**
There is an extensive framework of support for graduates within each college. Your college will allocate to you a College Advisor from among its Senior Members, usually in a cognate subject, who will arrange to see you from time to time and whom you may contact for additional advice and support on academic and other matters. In college you may also approach the Tutor for Graduates and/or the Senior Tutor for advice. The Tutor for Graduates is a fellow of the college with particular responsibility for the interests and welfare of graduate students. In some colleges, the Senior Tutor will also have the role of Tutor for Graduates. Each college will also have other named individuals who can offer individual advice.

**Central:**
The University provides a Student Counselling Service [http://www.ox.ac.uk/students/welfare/counselling/](http://www.ox.ac.uk/students/welfare/counselling/), a Disability Advice Service [http://www.ox.ac.uk/students/shw/das/](http://www.ox.ac.uk/students/shw/das/) and a Careers Service [http://www.careers.ox.ac.uk/](http://www.careers.ox.ac.uk/).

13. What arrangements are in place for gaining the views of research students?
The Faculty’s Graduate Studies Committee (GSC) has six postgraduate representatives: one BCL, one MLF, one MJur, one MSc, one first year research student, and one DPhil. The representatives are elected by the categories of students whom they represent. The GSC meets twice a term and postgraduate students are given a chance to help shape the agenda and prepare papers for each meeting. They are active participants on the Committee and consult with their respective constituencies on issues of interest. The Director of Graduate Studies (Research) confers with the representatives, and also holds a termly party for all research students, at which they are invited to talk to him or her about their programme, or to arrange a meeting.

At divisional level, there is a PGR Discussion Forum, made up of student representatives from each department/faculty of the division. Issues raised by this body are reported to the division’s Graduate Studies Committee. Research students in Law will be invited to elect a representative to this body. The views of research students are also sought by means of a centrally administered questionnaire, the Student Barometer, and the Faculty is also in the process of updating its research student questionnaire, by means of which research students will be able to comment on various aspects of research provision.
Code of practice on supervision

Appointment of Supervisors for Graduate Research Students

The supervisory structure and sources of support

Patterns of supervision differ in the Social Sciences Division according to the nature of the subject or research project. In some subjects there is typically a sole supervisor; others may have two or more supervisors. Some research projects, particularly those with an interdisciplinary element, typically have more than one supervisor.

Where more than one supervisor is appointed, one of the supervisors may be designated the primary supervisor. In the case of joint supervision, the respective roles and responsibilities of the supervisors concerned should be clearly established from the outset.

In all cases, the department or faculty shall ensure that each graduate student has access to one or more named persons to whom he/she can turn for support, such as the head of the relevant research group, or the Director of Graduate Studies. Where there is a sole supervisor, these other sources of support, and the arrangements for providing cover during the absence of the supervisor referred to at 3 below, are especially important.

Departments and faculties should ensure that expectations with regard to the supervisor role, including regular meetings with students, is spelled out clearly and is understood by all supervisors.

In all cases students should also expect to be able to approach a college advisor, appointed by the student’s college. The college may also have procedures in place to monitor the overall well-being of the graduate research student. If the college identifies any concerns which might impact on the academic progress of the student concerned, and which may not already have been recognised in departmental/faculty reports, it may refer these in confidence to the Director of Graduate Studies in the department/faculty concerned, who will initiate such action in the department/faculty as seems to him/her to be necessary in the individual circumstances.

The person(s) appointed to supervise

The supervisor shall normally be:

1. Someone of sufficient standing to be able to operate with credibility on behalf of the responsible body

   The main supervisor shall normally be a member of academic staff of the University, or a college fellow, with appropriate standing and expertise.

   Where specialist supervision is needed that is not available from a member of academic staff or college fellow, or a person holding, in the department, a substantial external fellowship or equivalent, a senior member of research staff (Grade 8 or above) may be appointed as a subject specialist supervisor, OR, in appropriate cases, a supervisor may be appointed who is external to the University of Oxford. In either of these circumstances, an experienced member of academic staff shall always be appointed as joint supervisor.
2. **Someone who has sufficient experience to be able to provide appropriate guidance to the student about the necessary procedures and, in particular, the academic expectations associated with an Oxford doctorate in their subject area.**

At least one supervisor will currently be engaged in research in the relevant discipline(s) or subject area so as to ensure that the direction and monitoring of the student's progress is informed by up to date subject knowledge and research developments.

Appropriate support and training will be given to new supervisors.

Each new member of academic staff may take advantage of support in developing their teaching by arranging a one-to-one consultation with the Division’s Educational Development Adviser shortly after starting in Oxford. This consultation will provide an opportunity for individuals to explore their own professional development needs and what aspects of the educational development programme of the Oxford Learning Institute (OLI) might be of help. In addition, all appointees new to supervision are encouraged to use the extensive online materials on the Oxford Learning Institute’s Research Supervision Website [http://www.learning.ox.ac.uk/supervision/](http://www.learning.ox.ac.uk/supervision/) and to take part in the seminar on Supervising DPhil students [http://www.learning.ox.ac.uk/seminars.php?page=3&cat=az](http://www.learning.ox.ac.uk/seminars.php?page=3&cat=az) available in Hilary Term. The Learning Institute can also provide a customised, Department-specific seminar on graduate supervision for groups of six more; two or more smaller Departments can combine if preferred. Further details are available from: kathryn.black@learning.ox.ac.uk.

For members of academic staff in their first period of office, Departments will appoint an adviser who will, amongst his/her other duties, provide advice, support, and guidance on teaching, and supervision of research students. New academic staff will also have access to general support and advice from the Director(s) of Graduate Studies in their department/faculty. The supervision record of a new member of academic staff is included in the review prior to appointment to retiring age, and a high standard of supervision is expected.

When a supervisor is not a member of academic staff at the University, or a fellow of an Oxford college, or with previous supervisory experience:

an experienced member of academic staff will be appointed by the department either as a joint supervisor or, where this arrangement is not available or appropriate, as a designated advisor to the supervisor, and will be expected to act as mentor specifically to support research supervision;

when the supervisor is a member of contract research staff, s/he will be expected to attend the OLI seminar.

**A candidate should not be admitted if there is no suitable specialist supervision available in the University or its colleges.**
3. **Someone who is able to undertake the tasks assigned to the supervisor in the Education Committee “Policy on Research Degrees” [http://www.admin.ox.ac.uk/edc/policiesandguidance/policyonresearchdegrees/]**

   including integrating them into the national and international network in their subject.

   In terms of academic standing and experience, this is dealt with above.

   Departments should put in place mechanisms to ensure that the quality of supervision is not put at risk as a result of the excessive volume and range of other duties assigned to individual supervisors. In respect of supervision of research students the norm is for university lecturers to supervise four students, and CUF and faculty lecturers three (notional maxima being eight and six respectively). These norms and notional maxima are based on sole supervision and, where staff are engaged in joint supervision, would be adjusted to reflect the level of commitment involved. The division typically expects a research student to have individual meetings with their supervisor for one hour not less than two to three times per term. However, the frequency may vary according to the stage of the research programme. It follows that, alongside his/her other duties, a supervisor should be able to provide this typical level of support for each of his/her research students.

   Departments shall make appropriate arrangements to cover for a supervisor’s absence on leave or for other reasons, and should ensure that students are not disadvantaged by the appointment as a supervisor of someone who is about to go on leave.

**Change of supervisor**

Where a student’s research changes focus such that their current supervisor may no longer be the most appropriate person to provide guidance on the revised topic, departments and faculties, in consultation with the supervisor concerned, should consider whether or not an additional or alternative supervisor should be appointed. It should be noted that such a change of research focus is unusual, and requires prior permission from the department or faculty concerned.

Where a student feels that there are good grounds for contemplating a change of supervisor, this should first be discussed with the supervisor concerned, or if this seems difficult, with the appropriate head of department, director of graduate studies or their deputies, or the college adviser (see section 4.1 of the Education Committee “Policy on Research Degrees”: [http://www.admin.ox.ac.uk/edc/policiesandguidance/policyonresearchdegrees/]).

If this involves concerns over the quality of supervision, students should be encouraged to seek to resolve the matter by informal means where possible, but should be made aware of the University’s formal complaint procedures. The procedures adopted by the Proctors for the formal consideration of complaints and appeals are described in the Proctors and Assessor’s Memorandum [http://www.admin.ox.ac.uk/proctors/info/pam/] and the relevant Council regulations [http://www.admin.ox.ac.uk/statutes/regulations/].

4. **Someone who has sufficient security of tenure to make it likely that they will see the student’s research through to successful conclusion.**
Normally, nobody should be appointed as supervisor if it is known at the time of the appointment that he or she will not be in post at the time the student is due to complete the programme in question.
Supervisor checklist

This document provides a checklist of the main areas of responsibility of supervisors:

General responsibilities

- provide academic leadership to the student, and clarification of expectations;
- advise the student about all aspects of the research programme: standards, planning, literature, sources, attendance at classes/lectures, techniques and skills;
- undertake a regular Skills Review/Training Needs Analysis with the student;
- (where co-supervisor or part of a supervisory team) co-ordinate advice and guidance, and to ensure that respective responsibilities are clear both to academic colleagues and to the student;
- advise at an early stage on research design and the effective collection and storage of data;
- avoid absence on leave without appropriate temporary supervision having been arranged for the student. [Leave will not normally be approved without such arrangements being in place.]
- have reasonable familiarity with institutional, national and international expectations relating to research environments, research supervision and research training (see the QAA Code of Practice http://www.qaa.ac.uk/assuring-standards-and-quality/the-quality-code).

Meetings and feedback

- agree with the student expected frequency and duration of meetings, and expected speed of feedback on student’s written work;
- meet with the student regularly (typically, for one hour two to three times per term) and return submitted work with constructive criticism within a reasonable time;
- keep written records of the meetings to ensure both student and supervisor are clear on action to be taken and to help in monitoring progress;

Student Research

- assist the student in defining the topic of research which can be completed and written up within the prescribed period;
- provide an overview and guidance on the structure of the completed thesis and guide the student through to completion;
- give guidance on:
(i) the nature of research and the standard expected (including advice on presentation and writing style);

(ii) the planning of the research, literature and sources;

(iii) attendance on appropriate research training and professional skills training courses

(iv) techniques that may be needed;

(v) other sources of advice and expertise;

(vi) ethical issues, and the procedures for seeking ethical approval through the Social Sciences and Humanities Inter-Divisional Research Ethics Committee (IDREC), where appropriate;

• ensure that the student is aware of, and has taken appropriate action with respect to:

(i) any ethical and legal issues connected with the research and data storage;

(ii) any health and safety issues connected with the research, including fieldwork;

(iii) issues concerning intellectual property;

(iv) issues related to third party copyright for the hard copy and digital thesis

(v) the need to avoid plagiarism and to be aware of University guidance on plagiarism (see Policy and Guidance for Examiners and others involved in University Examinations http://www.admin.ox.ac.uk/edc/policiesandguidance/pgexaminers/)

**Student progress, monitoring and performance**

- assist the student to work within a planned framework and time-table;

- monitor the student’s ability to write a coherent account of his or her work in good English;

- review student feedback and make termly reports on the student’s work using the Graduate Supervision System (GSS), including reviewing and updating training requirements. The supervisor should discuss the contents of the report with the student;

- provide the student with regular information as to the student’s progress, and, where problems arise, provide guidance and assistance as to necessary corrective action;

- provide relevant information on students’ attendance, academic progression, and performance to the department;
• assist the student with the preparation, time-table and submission of material relating to applications for transfer of status, and for confirmation of status, and to provide appropriate feed-back, especially where the student has failed to meet the required standards;

• ensure the student is familiar with all examination procedures and requirements;

• advise the student on the timing of the submission of the thesis and consult with the student in order to make recommendations for the appointment of examiners

**Resources**

• ensure that a student is familiar with the research facilities and activities of a department or faculty;

• advise as appropriate on financial support available, for example, funding for conferences, field trips, or other research travel;

• encourage the student to obtain knowledge and information about career opportunities and to alert the student, where necessary, to other services provided within the University, for example, health, disabilities, counselling, careers, skills

**Development and training**

• assist the student during the course of the first term, and at least annually thereafter, with the identification and subsequent development of skills for subject specific, research training and personal and professional purposes, including advice on teaching opportunities and appropriate training and ensure that the Skills Reviews/Training Needs Analysis is uploaded onto GSS;

• encourage the student to attended the Divisional student induction provided through the Social Sciences DTC and the appropriate courses offered through Divisional Skills Training Programme;

• pursue opportunities for the student to take part in the intellectual life of the department and to discuss his or her work with peers and others in the wider academic community (including the presentation, and possible publication, of research outcomes where relevant) at divisional, university, national and international level.

**Discussion prompts for first meetings with students**

To help clarify mutual expectations and establish good communication between supervisors and students, it may be useful to consider the following questions:

**Research Direction**

• How much direction do you expect to provide as a supervisor?

• How much direction does your student expect you to provide?
Knowledge and skills

• What skills do you expect your student to have or to acquire?

Time management and meetings

• How often do you expect to meet with your students?
• How much time do they expect from you?

Feedback and constructive criticism

• How often do you expect to receive work from students?
• What sort of feedback will you provide?
• What are your student’s expectations?

Turnaround times

• How quickly do you expect to provide feedback on work that students have submitted for review?
• How quickly does your student anticipate you being able to provide feedback?

Communication between meetings

• What medium do you prefer to communicate with students: by phone, e-mail, in writing?
• How quickly do you expect to respond to messages from students?
• What do they prefer and expect?

Expectations for written work

• Do you expect to receive students’ work all at once, or in smaller chunks?
• Do you expect their drafts to be ‘works in progress’ or more polished pieces?
• At what intervals do you expect students to submit work?
• Would you prefer to receive documents in hard copy or electronically?
Research student checklist

This document provides a checklist of the main areas of responsibility of research students:

**General responsibilities**

- an obligation to act as a responsible member of the University’s academic community;

- responsibility for his or her own research activity, for satisfying the requirements of the D.Phil. programme, and for giving the necessary time and effort to the programme;

- responsibility for the direction of and innovation in the research project as it develops, with the support of the supervisor(s);

- responsibility for reviewing skills and training needs on a regular basis with the support of the supervisor(s), undertaking any training agreed with the supervisor and department(s) concerned, and uploading completed Skills Review/Training Needs Analysis documents on GSS;

- responsibility for working with his or her supervisor(s), other staff and colleagues to maximise progress in his/her research degree.

**Meetings and feedback**

- initiate arrangements for meetings with the supervisor and agree a schedule of meetings, and maintain regular contact;

- discuss and agree with the supervisor the most appropriate model of supervision and the type of guidance/comment he/she finds most helpful;

- recognize the demands made on a supervisor’s time and the need to prepare adequately for meetings and to observe deadlines;

- accept the importance of constructive criticism within the supervisory relationship, and seek a full assessment of the strengths and weaknesses of any work;

- keep a written record of discussions with the supervisor, and give full weight to any suggested guidance and corrective action proposed;

**Research**

- define the area of research, complete the literature review, acquaint him/herself with the background knowledge needed, and produce a timetable for the completion of the research project;

- write a clear and detailed research proposal prior to embarking on the research for the thesis;
• abide by the University’s requirements with regard to plagiarism, and the legal, ethical, and health and safety guidelines related to her/his research;

• prior to embarking on empirical work or fieldwork (data collection):
  (i) seek approval from the supervisor;

  (ii) where research involves human subjects, seek ethical approval via her/his department/faculty and complete the University ethical approval form(s) for submission to the Social Sciences and Humanities Inter-divisional Research Ethics Committee (IDREC) prior to undertaking data collection;

  (iii) where necessary, apply in good time for a disclosure through the Criminal Records Bureau (CRB) if the research involves working with children and/or vulnerable adults.

Progress, monitoring and performance

• in consultation with the supervisor, establish a clear timetable and programme work which is kept under regular review, and keep relevant records of all aspects of the work;

• submit written material in sufficient time to allow for comments and discussion;

• engage actively in the review process and play an active role in planning and reviewing progress;

• seek out and follow the regulations applying to the research programme, and seek clarification, where necessary;

• provide regular reports on progress where these are required (and at least once a year for the supervisor), and to inform the supervisor immediately of any circumstance which might lead to interruption of study;

• with the support of the supervisor, complete the assessed written assignments required as part of the research training programme and submit them by the dates specified;

• ensure that the standard of his or her written and spoken English is of the necessary standard for the submission of a thesis;

• allow sufficient time for writing up and pay particular attention to final proof reading;

• decide when he or she wishes to submit the thesis for examination, having provided the supervisor with sufficient time to comment on the final draft and having taken account of the supervisor’s opinion;

• (where the student feels that there are good grounds for contemplating a change of supervision arrangements) discuss this with the existing supervisor, or, if this presents difficulty, with another appropriate officer in the department, faculty or with a college adviser
Resources

- make positive use of University, departmental/faculty, and college teaching and learning facilities;
- make appropriate use of any guidance available relating to the student’s career after successful completion of a research degree.

Development and training

- attend the required courses/training, and other appropriate courses and research training as agreed with the supervisor;
- make full use of opportunities to engage in the intellectual life of the department/faculty and the wider academic community;
- make appropriate use of opportunities for personal and professional development.
Glossary of Oxford Terminology

Some words and phrases used at Oxford are explained below, but the list will be incomplete because anyone who has been here for a while forgets which words are strange. If you don’t know what something means, just ask someone!

Some words and phrases used at Oxford are explained below, but the list will be incomplete because anyone who has been here for a while forgets which words are strange. If you don’t know what something means, just ask someone!

**Associate Professor:** the standard tenure-track career academic post at Oxford. Some Associate Professors hold the title of full Professor in recognition of their distinction.

**Battels:** college bills, payable each term. Non-payment is the only really quick and effective way for a student to get suspended.

**BCL:** (Bachelor of Civil Law): So called, but it is actually a *postgraduate* degree in English law. Its history and name are medieval, like the MA. But it evolved after World War I into a demanding postgraduate course taught by the professors of the University, as well as college tutors, in a combination of seminars and tutorials. In 1927, the exams for the BCL were in Common Law, Conflict of Laws, Equity, Evidence, Jurisprudence, Roman Law: Ownership and Possession, Roman Law: Locatio Conductio and Societas, Real and Personal Property, and Public International Law. There are some 35 to 40 options available in the BCL.

**Common Room:** in a College, a name for the organization of the academic staff (Senior Common Room), the undergraduates (Junior Common Room) or the graduate students (Middle Common Room; members of the MCR are typically given membership of the JCR as well). These names are used because along with other facilities, those organizations usually provide a room where you might find coffee and newspapers, or at least comfy seats. The Senior Common Room in the St. Cross Building is only a room, not an organization.

**Collection:** (1) A mock examination held by colleges (typically just before the beginning of term, based on work done in the previous term); (2) a College meeting between a student and the head of college, and or tutors, held at the end of each term to discuss the student’s work (also called a ‘handshaking’ in some colleges).

**College:** A self-governing society of fellows. Colleges admit undergraduate students (who are then admitted to the University), and admit graduate students after they are admitted by the University. Colleges provide accommodation, meals, common rooms, libraries, sports and social facilities, and pastoral care for their students and faculty. Crucially, they provide tutorial teaching for undergraduates. That makes them more than just student residences; they are residential communities whose focal purposes are teaching and learning.

**DGSR:** the Law Faculty’s Director of Graduate Studies (Research).

**DGST:** the Law Faculty’s Director of Graduate Studies (Taught Courses).

**DPhil** (Doctor of Philosophy): a recent (1914) innovation, the University’s highest research degree.

**Examination Schools:** grandiose, scary Victorian building on the High Street where most undergraduate and BCL, MJur, and MSc examinations are held, as well as some oral examinations for research degrees.

**Fellow:** member of the governing body of a College. Most of the tutors in a college are fellows.

**Final Honour School [‘FHS’]:** the course leading to the second public examination (i.e., the University examination for the BA). The course for the BA in law is the Honour School of Jurisprudence.

**Finals:** the final examination in the Final Honour School, sometimes called ‘Schools’.

**First Public Examination:** see Law Moderations.

**Graduate:** a person who has received a university degree.
GSC: Graduate Studies Committee (a committee of the Law Board).

Head of a college: the chief officer in a college, with various responsibilities including chairing meetings of the governing body. 'Head' is a generic term; they are called President (Corpus Christi, Kellogg, Magdalene, St. John's, Trinity, Wolfson), Principal (Brasenose, Harris Manchester, Hertford, Jesus, Lady Margaret Hall, Linacre, Mansfield, Regent’s Park, St. Anne’s, St. Edmund Hall, St. Hilda’s, St. Hugh’s, Somerville), Master (Balliol, Pembroke, St. Catherine’s, St. Cross, St. Peter’s, University), Rector (Exeter, Lincoln), Warden (All Souls, Green, Keble, Merton, New, Nuffield, St. Antony’s, Wadham), Provost (Oriel, Queen’s, Worcester), or Dean (Christ Church).

Isis: The Thames, while running through Oxford.

Junior member (of a college, or of the University): student.

Law Board: the governing body of the Law Faculty, chaired by the Dean. Faculty officers (the Chair and Vice-Chair of the Law Board, the Directors of Graduate and Undergraduate Studies) are members ex officio; other members are elected from among Faculty members. The Graduate Studies Committee, like other Faculty committees, reports to Law Board and acts subject to the approval of Law Board. The Law Faculty sometimes meets as a Faculty to discuss policies, but decisions are made by the Law Board.

Law Moderations (Law Mods): the first University examination taken by undergraduate law students. The result is a Fail, a Pass, or a Distinction, and students must pass to proceed to Finals. Marks awarded are supplied to students’ colleges, but do not count to the final classification of degrees. First Public Examinations in other subjects may be called Preliminary Examinations or Prelims.

Lecture: an exercise in which one teacher addresses an audience of students (a few students, or a few hundred). Students are allowed to ask questions!

MA (Master of Arts): a degree awarded to a student who completes the BA, and then survives for 21 terms (7 years) after matriculating without going to prison. MAs outrank any person who does not have the degree of MA, other than doctors of divinity, medicine and civil law.

MJur (Magister Juris): a taught postgraduate degree introduced in 1991, and designed as a counterpart to the BCL for students who have been trained in law outside the common law jurisdictions. MJur candidates may take one of the Oxford undergraduate common-law courses, and are eligible for most of the BCL subjects.

MLitt (Master of Letters): A two- to three-year research degree.

MPhil (Master of Philosophy): a limited-entry, one-year research degree, which is only open to students who have completed the BCL or the MJur and met special grade requirements.

MSc in Criminology and Criminal Justice: a one-year taught postgraduate course, which involves a combination of coursework and a dissertation.

MSt (Master of Studies): a research degree designed to be completed in one year.

Matriculation: ceremony in the Sheldonian Theatre for admission to the University of Oxford as a student.

Pigeonhole: your mailbox, usually in an array of mailboxes in a porter’s lodge.

Porter: gatekeeper, receptionist, and postal worker at the front entrance ('porters’ lodge’) of each college. Porters are helpful.

Postgraduate: a graduate who is a student.

Proctors: two senior university officers, nominated by colleges in rotation for a period of one year, with responsibility for (among other things) some matters of student discipline, overseeing the conduct of examinations, and investigating student complaints about the University. The extent of their jurisdiction is indeterminate.

Professor: the holder of a senior academic post with responsibilities to teach for the University but not for a College, or an academic holding another post on whom the title has been conferred in recognition of their distinction.
PRS (Probationer Research Student): the term used for a student admitted to work toward the DPhil or the MLitt, before completion of the Qualifying Test for DPhil or MLitt status.

Punt: a boat with a pole. When it comes to a choice, stay with the boat and let go of the pole.

Reader: the holder of an academic post intermediate between a university lectureship and a professorship, or an academic holding another post on whom the title has been conferred as a sign of distinction. The University no longer creates new Readerships.

Rustication: a temporary sending down, i.e. a suspension from the University, usually for a major disciplinary offence.

Schools: see Examination Schools. Also a name for the undergraduate examinations (see Finals).

Scout: a member of a college’s staff who cleans rooms and keeps an eye on students.

Second Public Examination: see Finals.

Seminar: an exercise, typically held around a table, in which one or more teachers discuss their subject with a group of students. Different from a lecture because the teacher is usually sitting down, and there is often more than one teacher. A common procedure is that one teacher (sometimes a visiting speaker) presents a paper, or less formally explains their view on a problem, and another teacher responds, with open discussion following.

Sending down: requiring a student to leave the University.

Senior Member (of a college or the University): roughly, a member of the Faculty or a college fellow. So, professors, lecturers (whether of a college or of the University) and research fellows of colleges may all be termed senior members. The contrast is with junior members (students).

Senior Status: the status of a student who has already taken a degree, and is reading for another undergraduate degree (a second BA) with dispensation from the First Public Examination.

Senior Tutor: the officer in a college who has overall responsibility for academic affairs. The fellow who has been at the college the longest is usually called the ‘senior fellow’. The tutor in a particular subject who has been at the college longest is usually called the ‘senior subject tutor’ (so the law tutor who has been there longest is the Senior Law Tutor).

Subfusc (from the Latin for ‘dark brown’): for women, black trousers and black socks or a black skirt with dark tights, black shoes, white blouse, a black ribbon worn as a bow-tie, and mortarboard and gown. For men, a dark suit, black shoes and socks, a white shirt and white bow-tie, and mortarboard and gown. Wear subfusc for matriculation, examinations (written and oral) and degree ceremonies. Avoid wearing it on other occasions.

Term: The 8 weeks (Sunday of week 1 to Saturday of week 8) of the three Oxford academic terms: Michaelmas Term (MT) (early October to early December, named after the feast of St. Michael on September 29), Hilary Term (HT) (mid-January to mid-March, named after the festival (January 13) of Hilarus, the bishop of Poitiers, who died in 367), and Trinity Term (TT) (mid-April to mid-June, named after the festival of the Holy Trinity). Strictly speaking, those periods are known as ‘full terms’ and extended terms are about three weeks longer. Faculty teaching, including lectures and seminars, is conducted during full terms.

Tutor: a teacher who gives tutorials. Most undergraduate students have a tutorial at least once a week in term time. Tutorials are more important in the BCL/MJur than in any other graduate degree in Oxford (or in the whole world).

Tutorial: a meeting to discuss the student’s work, and the subject that the student is studying. Tutorials vary widely, depending on the tutor’s methods and the subject matter; the core features are that (i) there is one teacher present, (ii) there are very few students (typically two, sometimes one or sometimes three for an undergraduate tutorial; anywhere from one to four for a BCL/MJur tutorial), (ii) one or more of the students has written an essay. The students’
own work is usually the focus of discussion in the tutorial; most tutors try not to turn the tutorial into a small lecture. **The University:** the oldest English-speaking degree-granting institution in the world, and older than any of the colleges. It was already in some sort of operation before 1100, but it started to grow in 1167 when Henry II stopped English students going to Paris. The University has had a Chancellor since 1214. The University decides the content of courses, organizes lectures, seminars, and graduate supervision, provides libraries, laboratories, museums, computing facilities, etc.; admits graduate students, conducts all degree examinations, and awards degrees. The Law Faculty is part of the University’s Division of Social Sciences (www.socsci.ox.ac.uk). The University’s first overseas student was Emo the Friesian, in 1190. For the University’s legal status, see www.admin.ox.ac.uk/statutes/375-092.shtml.

The University is not to be confused with University College, which is a college. **Viva** (short for `Viva Voce‘): oral examination. There used to be vivas for the BA and for the BCL, but now we only use them in examining research degrees, for which purpose the viva serves as an opportunity for the student to defend the thesis.
